The Red Rose of Lancaster was the heraldic badge adopted by the royal House of Lancaster in the 14th century. In modern times it symbolises the county of Lancashire. The exact species or cultivar which it represents is thought to be Rosa gallica officinalis. The red rose was first adopted as a heraldic badge by John of Gaunt, 1st Duke of Lancaster third surviving son of King Edward III of England and father of King Henry IV, the first Lancastrian king, who seized the throne from his first cousin

Red Rose of Lancaster - Wikipedia
The House of Lancaster was a branch of the royal House of Plantagenet. It was one of the opposing factions involved in the Wars of the Roses, an intermittent civil war which affected England and Wales during the 15th century.

House of Lancaster - geni family tree
The House of Lancaster claimed the throne through John of Gaunt, Duke of Lancaster the second son of Edward III. When Edward died the throne went to his grandson Richard II the son of the 'Edward the Black Prince'. Richard saw his Lancastrian cousins as a threat and banished Henry Bolingbroke and confiscated his large inheritance.

The Wars of the Roses were central to 15th-century English history. Their cause lay both deep in the constitution of the Lancastrian kingship and closer to the surface in Henry VI's personal weaknesses. This account of the end of the Lancastrian dynasty brings these factors into sharp focus. Storey constructs a lucid interpretation of the fickle support afforded to Henry VI by his great lords, and postulates that it was this breakdown in law and order - caused by Henry's personal weakness - which provided the perfect conditions for the outbreak of war.

On 4 May 1471 the forces of Lancaster under the Duke of Somerset and those of York under Edward IV clashed at Tewkesbury in Gloucestershire in one of the decisive battles of the Wars of the Roses. Edward's overwhelming victory secured for him the throne of England and led to the near ruin of the Lancastrian cause. Steve Goodchild's gripping account of the fighting, and of the politics and intrigue that led to it, is the first to take fully into account the landscape of the West Country over which the opposing armies marched and the terrain on which they fought.

Acclaimed world champions in 2003, the England rugby union team came home from the World Cup in New Zealand eight years later to the sound of silence. Their rugby was uninspiring and their reputation in tatters. Stuart Lancaster - former burger-flipper, PE teacher and the novice Saxons coach - was tasked with turning a failing team around. The transformation was astounding. Now Lancaster's side has the work ethic, humility and resolve to compare with that World Cup-winning team. Much of this is down to their coach, but with so little international experience, how did he bring about this renewal? Part biography, part examination of leadership, The House of Lancaster pulls apart the England rugby machine and looks at how it has been put together. Filled with exclusive interviews from the leading protagonists, players and coaches, as well as containing unprecedented access to Lancaster's methods, The House of Lancaster shows how the vision, personality and leaderships skills of one driven man can turn a team into genuine world-beaters. With a foreword from Sir Ian McGeechan OBE
