A bit of a mixed bag, but I did enjoy "A Face to the World" and felt I learned quite a bit--to some extent about the artists, but also about the nature of art criticism. Ms. Cumming's prose suffers to some degree from the kind of overwriting and preciousness that infects the captions at museum exhibitions, ...

All of these assets she bestows on the reader of this amazingly original book, A FACE TO THE WORLD: ON SELF-PORTRAITS. Not content to simply list the artists of history and of now who shared their own perceptions of themselves with self-portraits, Cumming instead includes the vision, in her words, ' For all a self-portrait can ever be is the illusion of the artist's self.

My Face for the World to See by Alfred Hayes - review Hayes's scrupulously nuanced narrative is an insider's manual for anyone who might aspire to the ghostly glamour of Hollywood Nicholas Lezard

Focusing on the art of self-portraiture, this effortlessly engaging exploration of the lives of artists sheds fascinating light on some of the most extraordinary portraits in art history.

Alfred Hayes is one of the secret masters of the twentieth century novel, a journalist and scriptwriter and poet who possessed an immaculate ear and who wrote with razorsharp intelligence about passion and its payback. My Face for the World to See is set in Hollywood, where the tonic for anonymity is fame and you're only as real as your image. At a party, the narrator, a screenwriter, rescues a young woman who staggers with drunken determination into the Pacific. He is living far from his wife in New York and long ago shed any illusions about the value of his work. He just wants to be left alone. And yet without really meaning to, he gets involved with the young woman, who has, it seems, no illusions about love, especially with married men. She's a survivor, even if her beauty is a little battered from years of not quite making it in the pictures. She's just like him, he thinks, and as their casual relationship takes on an increasingly troubled and destructive intensity, it seems that might just be true, only not in the way he supposes.

This book provides a comprehensive examination of the human face, providing fascinating information from biological, cultural, and social perspectives. • A complete bibliography of sources and index of subjects • Includes 100 images, numerous sidebars, and interesting "pop-out" quotes

War looms over Sanctuary in the fifth Thieves' World® anthology compiled by the New York Times–bestselling author of the Phule's Company series. The invasion by the Beysibs, an amphibious humanoid race, brings unusual prosperity to the city of Sanctuary. But underneath the glittering façade lies a ticking time bomb, for the nefarious residents of Sanctuary don't take kindly to an invasion—well-meaning or otherwise . . . Join Janet Morris, C. J. Cherryh, Robert Lynn Asprin, Lynn Abbey, David Drake, and Diana L. Paxson as their stories unravel the fates of Sanctuary's favorite liars, thieves, assassins, and warriors. "Abbey . . . understands Sanctuary and its characters. She also knows how to write a short story with a strong main character, a riveting plot that contains twists and turns, and a satisfying resolution. Best story in the book . . . Lalo is the most interesting of all of the characters in Thieves' World and his stories are always interesting. Paxson . . . spins an interesting and well written yarn that closes the book nicely."

His sons, Leith and Hal, set off in pursuit with a small group of villagers to free their parents and to warn their world of the coming war. But not all of the Company agree that so few can make a difference. or think that anyone will listen to them. Across the Face of the World is a remarkable feat of storytelling - a dazzling epic from a stunning new talent.

Haunted by the suicide of a gifted young black writer who was his best friend, Jed pursues the reason for it.

Assesses Merleau-Ponty's contribution to ethics as calling for a poetic interplay between perception and imagination, and between silence and solidarity, that reveals our place in the world, and our obligations to ourselves and others. Before his death in 1961, Merleau-Ponty worried about what he saw as humanity's increasingly self-enclosed and manipulative way of experiencing self, others, and the world—the consequences of which remain apparent in our destructive inability to connect with others within and across cultures. In Merleau-Ponty and the Face of the World, Glen A. Mazis provides an overall consideration of Merleau-Ponty's philosophy that brings out what he sees as a corrective prescription for ethical

reorientation that is fundamental to Merleau-Ponty's thought. Mazis begins by analyzing the key role that silence plays for Merleau-Ponty as a positive, powerful presence rather than a lack or emptiness, and then builds on this to explore the ethical significance of the face-to-face encounter in his thought as one of solidarity rather than obligation. In the last part of the book, Mazis traces the development of what he calls "physiognomic imagination" in Merleau-Ponty's work. This understanding of imagination is not fancy or make-believe, but rather brings out the depths of perceptual meaning and leads to an appreciation of poetic language as the key to revitalizing both ethics and ontology. Drawing on Merleau-Ponty's published works, lecture notes, unpublished writings, and the work of many phenomenologists and Merleau-Ponty scholars, Mazis also offers incisive readings of Merleau-Ponty's work as it relates to that of Antoine de Saint-Exupéry, Gaston Bachelard, and Emmanuel Levinas.

In his examination of a wide array of court papers from Albemarle County, a rural Virginia slaveholding community, Kirt von Daacke argues against the commonly held belief that southern whites saw free blacks only as a menace. Von Daacke reveals instead a more easygoing interracial social order in Albemarle County that existed for more than two generations after the Revolution—stretching to the mid-nineteenth

century and beyond—despite fears engendered by Gabriel’s Rebellion and the Haitian Revolution. *Freedom Has a Face* tells the stories of free blacks who worked hard to carve out comfortable spaces for existence. They were denied full freedom, but they were neither slaves without masters nor anomalies in a society that had room only for black slaves and free white citizens. A typical rural Piedmont county, Albemarle was not a racial utopia. Rather, it was a tight-knit community in which face-to-face interactions determined social status and reputation. A steep social hierarchy allowed substantial inequalities to persist, but it was nonetheless an intimately interracial society. Free African Americans who maintained personal connections with white neighbors and who participated openly in local society were perceived as far more than stereotypical dangerous blacks. Based on his work building a cross-referenced database containing individual records for nearly five thousand documents, von Daacke reveals a detailed picture of daily life in Albemarle County. With this reinsertion of individual free blacks into the neighborhood, community, and county, he exposes a different, more complicated image of the lives of free people of color.
