Aircraft Rescue and Fire Fighting addresses the requirements of NFPAr 1003, Standard for Airport Fire Fighter Professional Qualifications (2005 edition). Additional material addresses the airport fire fighting apparatus covered in Chapter 9 of the 2008 edition of NFPAr 1002, Standard on Fire Apparatus Driver/Operator Professional Qualifications. Key parts of NFPAr 402, Guide for Aircraft Rescue and Fire-Fighting Operations (2008 edition), and NFPAr 403, Standard for Aircraft Rescue and Fire-Fighting Services at Airports (2008 edition), are also covered in this manual. Other materials included in this manual are those subjects included in the training requirements of Federal Aviation Regulations (FARs) 139.315, 139.317, and 139.319.

This manual provides basic information needed by firefighters to effectively perform the various tasks involved in aircraft rescue and fire fighting. Also addresses the requirements.

Exam Prep: Airport Fire Fighter is part of Jones and Bartlett's comprehensive series of exam preparation manuals for fire service professionals. The series author, Dr. Ben A. Hirst through his company, Performance Training Systems, writes and validates actual certification and promotional exams for state fire training agencies and major fire departments nationwide. Each book in the Exam Prep series includes questions that have been used on these actual exams. This manual contains three full-length practice exams with self-scoring guides and page references to major texts and references on the subject. Winning test-taking tips and helpful hints are also provided. The manual follows Dr. Hirst' s Systematic Approach to Exam Preparation, which provides immediate feedback to help students emphasize areas of weakness and learn material through context and association.

In this third edition the chapters have been enhanced to reflect changes in technology and the way the air transport industry runs. Key topics that are newly addressed include low cost airline operations, security issues and EASA regulations on airports. A new chapter covering extended details about wildlife control has been added to the volume.

Aircraft Firefighters, Airport Driver Operators, and Airport Crew Chiefs will use this text to meet the most current NFPA, FARs, and ICAO requirements. The book includes: * 31 Skill Sheets NEW in this edition * Photos, Illustrations and Learning Activities - ALL NEW * Review Questions for all 12 chapters * Exam Prep for students is a separate item This book provides the information firefighters need to effectively perform the tasks for aircraft rescue and fire fighting and to complete airport firefighter certification.
