A Sunday Times top-five bestseller 'This is a remarkable book . . . profound and deeply moving . . . It has as much to tell us about mental illness as it does about policing' Alastair Stewart John Sutherland joined the Met in 1992, having dreamed of being a police officer since his teens. Rising quickly through the ranks, he experienced all that is extraordinary about a life in blue: saving lives, finding the lost, comforting the broken and helping to take dangerous people off the streets. But for every case with a happy ending, there were others that ended in desperate sadness, and in 2013 John suffered a major breakdown. Blue is his memoir of crime and calamity, of adventure and achievement, of friendship and failure, of serious illness and slow recovery. With searing honesty, it offers an immensely moving and personal insight into what it is to be a police officer in Britain today.

“ Tangled Up in Blue is a wonderfully insightful book that provides a lens to critically analyze urban policing and a road map for how our most dispossessed citizens may better relate to those sworn to protect and serve. ” —The Washington Post “ Remarkable . . . Brooks has produced an engaging page-turner that also outlines many broadly applicable lessons and sensible policy reforms. ” —Foreign Affairs Journalist and law professor Rosa Brooks goes beyond the "blue wall of silence" in this radical inside examination of American policing In her forties, with two children, a spouse, a dog, a mortgage, and a full-time job as a tenured law professor at Georgetown University, Rosa Brooks decided to become a cop. A liberal academic and journalist with an enduring interest in law's troubled relationship with violence, Brooks wanted the kind of insider experience that would help her understand how police officers make sense of their world—and whether that world can be changed. In 2015, against the advice of everyone she knew, she applied to become a sworn, armed reserve police officer with the Washington, DC, Metropolitan Police Department. Then as now, police violence was constantly in the news. The Black Lives Matter movement was gaining momentum, protests wracked America's cities, and each day brought more stories of cruel, corrupt cops, police violence, and the racial disparities that mar our criminal justice system. Lines were being drawn, and people were taking sides. But as Brooks made her way through the police academy and began work as a patrol officer in the poorest, most crime-ridden neighborhoods of the nation's capital, she found a reality far more complex than the headlines suggested. In Tangled Up in Blue, Brooks recounts her experiences inside the usually closed world of policing. From street shootings and domestic violence calls to the behind-the-scenes police work during Donald Trump's 2016 presidential inauguration, Brooks presents a revelatory account of what it's like inside the "blue wall of silence." She issues an urgent call for new laws and institutions, and argues that in a nation increasingly divided by race, class, ethnicity, geography, and ideology, a truly transformative approach to policing requires us to move beyond sound bites, slogans, and stereotypes. An explosive and groundbreaking investigation, Tangled Up in Blue complicates matters rather than simplifies them, and gives pause both to those who think police can do no wrong—and those who think they can do no right.

Christopher (Kit) Lukas ' s mother committed suicide when he was a boy. He and his brother, Tony, were not told how she died. No one spoke of the family ' s history of depression and bipolar disorder. The brothers grew up to achieve remarkable success; Tony as a gifted journalist (and author of the classic book, Common Ground), Kit as an accomplished television producer and director. After suffering bouts of depression, Kit was able to confront his family ' s troubled past, but Tony never seemed to find the contentment Kit had attained – he killed himself in 1997. Written with heartrending honesty, Blue Genes captures the devastation of this family legacy of depression and details the strength and hope that can provide a way of escaping its grasp.

"A YA memoir of sexual abuse in the Air Force academy, and the author's survival and healing."--Provided by publisher.

Shades of Blue - 30 Years of (un) Ethical Policing is an entertaining and interesting journey into the moral/ethical dilemmas that challenge police officers. It is written as the memoir of the main character and contains accounts of riveting events in the author's career. The authentic presentation places readers right in the middle of the action. If you have ever wondered about the real culture of law enforcement, this book lets you walk in their shoes. The author's street philosophy, acquired over 30 years as a police officer, makes for engaging and humorous reading.

An Iraq War veteran candidly recounts his troubled post-war life and journey to confronting PTSD in this “ unflinchingly honest . . . gut-wrencher of a book ” (Kirkus). As a Marine on the front line of Operation Iraqi Freedom, Lieutenant Scotti was taught that weakness gets you killed. To survive, you must focus on your objective and act without hesitation. Upon returning from war, Scotti approached his new life the same way. He ignored the creeping depression and numbness he called "The Blue Cascade" and charged toward his goal of getting an MBA, securing a finance job, and retiring young. All the while, Scotti was being eaten away inside. Scenes of drunken emotion and raging violence were becoming more and more frequent. Years after returning from active combat, he found himself contemplating suicide before a series of powerful events changed the course of his life. As the narrator and star of the 2009 documentary Severe Clear, Scotti offered an intimate look at the realities of modern combat. In The Blue Cascade, he opens up about his path to healing and how he found a very different mantra for survival: It's ok if you are not ok.

The book that finally gives a physician ' s inside story of the evacuation of Memorial Medical Center following Katrina — a gripping tale of abandonment and survival. A toxic stew of floodwaters surrounded Memorial Medical Center in New Orleans after Katrina when the levees broke. Over two thousand people were trapped in the squalid conditions without security as the death toll steadily rose inside. Bodies stacked up in the chapel as the temperature soared in the overcrowded hospital and the situation became increasingly desperate. Doctors, nurses, and staff worked around the clock, caring for those inside and trying to evacuate the facility, also known as Baptist Hospital. Allegations of euthanasia would later make headlines across the country and be investigated by state and local officials. Code Blue: A Katrina Physician ' s Memoir finally tells the inside story of the hellish nightmare those who struggled to survive the ordeal were cast into. Dr. Richard Deichmann, the hospital ' s chief of medicine and one of the leaders of the evacuation, gives his compelling account of the rapidly deteriorating state of affairs at the hospital. He takes us through the daily horrors and numbing disappointments. This gripping tale of survival, despite betrayal and abandonment by the authorities, may change forever the way you view the threat of a mass disaster. What Others are Saying about Code Blue: A Katrina Physician ' s Memoir As a physician who has been on hurricane duty for prior storms, I thought I could imagine what it would be like if we were hit by a severe storm. I was wrong. This book should serve as a warning about what can happen when basic modern conveniences such as power, running water, communications and safety are taken away. - Karen Blessey, MD

Journalist Walls grew up with parents whose ideals and stubborn nonconformity were their curse and their salvation. Rex and Rose Mary and their four children lived like nomads, moving among Southwest desert towns, camping in the mountains. Rex was a charismatic, brilliant man who, when sober, captured his children's imagination, teaching them how to embrace life fearlessly. Rose Mary painted and wrote and couldn't stand the responsibility of providing for her family. When the money ran out, the Walls retreated to the dismal West Virginia mining town Rex had tried to escape. As the dysfunction escalated, the children had to fend for themselves, supporting one another as they found the resources and will to leave home. Yet Walls describes her parents with deep affection in this tale of unconditional love in a family that, despite its profound flaws, gave her the fiery determination to carve out a successful life. -- From publisher description.

An Amazon Best Book of the Year optioned for television by Gabrielle Union! In a series of personal essays, prominent journalist and LGBTQIA+ activist George M. Johnson explores his childhood, adolescence, and college years in New Jersey and Virginia. From the memories of getting his teeth kicked out by bullies at age five, to flea marketing with his loving grandmother, to his first sexual relationships, this young-adult memoir weaves together the trials and triumphs faced by Black queer boys. Both a primer for teens eager to be allies as well as a reassuring testimony for young queer men of color, All Boys Aren't Blue covers topics such as gender identity, toxic masculinity, brotherhood, family, structural marginalization, consent, and Black joy. Johnson's emotionally frank style of writing will appeal directly to young adults.
