If you want to change your life, the Change Your Thoughts, Change Your Life Challenge may be just what you need. It is widely known the power we have to change our life when we change our thoughts. But how do we change our thoughts? Why do many of us stay stuck in old patterns and bad habits?

Five hundred years before the birth of Jesus, a God-realized being named Lao-tzu in ancient China dictated 81 verses, which are regarded by many as the ultimate commentary on the nature of our existence. The classic text of these 81 verses, called the Tao Te Ching or the Great Way, offers advice and guidance that is balanced, moral, spiritual, and always concerned with working for the good. In this book, Dr. Wayne W. Dyer has reviewed hundreds of translations of the Tao Te Ching and has written 81 distinct essays on how to apply the ancient wisdom of Lao-tzu to today's modern world. This work contains the entire 81 verses of the Tao, compiled from Wayne's researching of 12 of the most well-respected translations of text that have survived for more than 25 centuries. Each chapter is designed for actually living the Tao or the Great Way today. Some of the chapter titles are "Living with Flexibility," "Living Without Enemies," and "Living by Letting Go." Each of the 81 brief chapters focuses on living the Tao and concludes with a section called "Doing the Tao Now." Wayne spent one entire year reading, researching, and meditating on Lao-tzu's messages, practicing them each day and ultimately writing down these essays as he felt Lao-tzu wanted you to know them. This is a work to be read slowly, one essay a day. As Wayne says, "This is a book that will forever change the way you look at your life, and the result will be that you'll live in a new world aligned with nature. Writing this book changed me forever, too. I now live in accord with the natural world and feel the greatest sense of peace I've ever experienced. I'm so proud to present this interpretation of the Tao Te Ching, and offer the same opportunity for change that it has brought me."

This text offers an opportunity to internalize and directly experience the great wisdom of the Tao Te Ching, a collection of verses authored by the Chinese prophet Lao-tzu. Although just 81 short verses, the Tao encourages readers to change their lives by literally changing the way they think.

With the overwhelming success of the first edition, Change Your Thoughts, Change Your World proved to be a valuable tool in showing readers how every area of life is based on perspective, and how a different mindset can drastically improve both the present and the future. Bishop M.B. Jefferson has revised and expanded this manual for success with vital insights, new topics and practical wisdom. With an engaging approach and biblical principles, Change Your Thoughts, Change Your World is an updated, compelling examination of how men and women can begin to think differently and ultimately transform their lives.

Did you know most of our patterns of behavior are set by the time we are six years old? No wonder it's so hard to change! Dr. David Stoop shows readers that the true way to lasting change is in the renewing of our minds, which we accomplish when we faithfully read God's Word and meditate on it daily. He clearly shows how to move from fear to love, from resentment to gratitude, from lust to purity, from loneliness to connection, from idolatry to contentment, and from mistrust to trust. Anyone eager to find change that lasts will welcome this practical and encouraging message.

Cutting-edge science and the ancient wisdom of Buddhism have come together to reveal that, contrary to popular belief, we have the power to literally change our brains by changing our minds. Recent pioneering experiments in neuroplasticity—the ability of the brain to change in response to experience—reveal that the brain is capable of altering its structure and function, and even of generating new neurons, a power we retain well into old age. The brain can adapt, heal, renew itself after trauma, compensate for disabilities, rewire itself to overcome dyslexia, and break cycles of depression and OCD. And as scientists are learning from studies performed on Buddhist monks, it is not only the outside world that can change the brain, so can the mind and, in particular, focused attention through the classic Buddhist practice of mindfulness. With her gift for making science accessible, meaningful, and compelling, science writer Sharon Begley illuminates a profound shift in our understanding of how the brain and the mind interact and takes us to the leading edge of a revolution in what it means to be human. Praise for Train Your Mind, Change Your Brain "There are two great things about this book. One is that it shows us how nothing about our brains is set in stone. The other is that it is written by Sharon Begley, one of the best science writers around. Begley is superb at framing the latest facts within the larger context of the field. This is a terrific book."—Robert M. Sapolsky, author of Why Zebras Don't Get Ulcers "Excellent . . . elegant and lucid prose . . . an open mind here will be rewarded."—Discover "A strong dose of hope along with a strong does of science and Buddhist thought."—The San Diego Union-Tribune

"Most of us want to change the world, but only a few of us are willing to change our own minds!" Yet there is a shift taking place in the world, where more and more people are recognizing that it is our own thoughts and attitudes that determine how we look at the world and, ultimately, what we see. This book is for people of all ages, religions, and cultures who have a desire and a willingness to change the thoughts in their minds.
