Hansen/Mowen's CORNERSTONES OF COST MANAGEMENT demonstrates the dynamic, exciting nature of cost accounting in today's changing business environment. The text first covers functional-based cost and control and then activity-based cost systems, giving students the understanding and skills to manage any cost management system. Cornerstones examples throughout each chapter provide students with step-by-step coverage of the How, Why, and What Ifs of solving and mastering basic cost management concepts, while also getting at the conceptual understanding that students often struggle to grasp. It includes CPA-Type Exercises in each chapter that have been taken directly from past CPA Exams or have been written by the authors to prepare students for their futures in business. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Gain an understanding of the principles behind cost accounting and its importance in organizational decision making and business today with the unique, reader-friendly approach in Hansen/Mowen/Heitger ' s COST MANAGEMENT, 5E. This edition addresses functional-based cost and control and, then, activity-based cost systems - giving you the skills to navigate any cost management system. Updates address emerging developments, including the role of data analytics in cost management today. An entire new chapter also examines global issues, such as virtual currency and blockchain. This edition's extensively researched, proven approach is tailored to the way you learn. Structured examples from familiar companies emphasize the real-world applications and relevance of what you are learning. In addition, clear explanations review the concepts behind each equation or topic, detailing the hows, whys and what-ifs. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

The emphasis of MANAGERIAL ACCOUNTING, 6e is on teaching students to use accounting information to best manage an organization. In a practice Hilton pioneered in the first edition, each chapter is written around a realistic business or focus company that guides the reader through the topics of that chapter. Known for balanced examples of Service, Retail, Nonprofit and Manufacturing companies, Hilton offers a clear, engaging writing style that has been praised by instructors and students alike. As in previous editions, there is significant coverage of contemporary topics such as activity-based costing, target costing, the value chain, customer profitability analysis, and throughput costing while also including traditional topics such as job-order costing, budgeting and performance evaluation.

Practice Spoilage, Rework and Scrap MCQ PDF with answers to solve MCQ test questions: Job costing, spoilage, rework and scrap terminology, scrap and byproducts accounting, types of spoilage, WAM, and spoilage.

Hansen/Mowen 's CORNERSTONES OF COST MANAGEMENT, 4E demonstrates the dynamic nature of cost accounting in today 's changing business environment. The book covers functional-based cost and control, and then activity-based cost systems, giving students the skills to manage any cost management system. Developed using extensive research on student learning behavior, this book presents concepts in a unique format that speaks to how students learn. Cornerstones examples in each chapter emphasize the How, Why, and What-ifs of basic cost management concepts, while delving into the conceptual nature of each equation or topic. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

This book captures an entire spectrum of Cost Management precisely and is organized into eight chapters described below. Chapter-1 An Overview of Cost Management: The purpose of this chapter is to familiarize the reader with the basic aspects of cost management such as costing, cost accounting, cost management, difference between financial and cost accounting, classification of cost, objectives, various methods and techniques of cost accounting, preparation of cost sheet including job and batch cost sheet. Chapter-2 Process Costing: This chapter covers preparation of process account, process losses and gains and accounting treatment of process losses and gains, accounting treatment of joint and by-products, valuation of work-in-process. Chapter-3 Overhead Distribution: This chapter covers classification of overheads, apportionment of common overheads among various cost centers, re-apportionment of overheads under various methods with their merits and demerits. It also covers absorption of overheads under different methods, overhead variance and different methods of accounting treatment of overhead variance. Chapter-4 Marginal Costing: The purpose of this chapter is to familiarize the reader with various aspects of marginal costing and its applications. Marginal costing as an improvement over absorption costing, Various marginal costing techniques such as contribution margin, P/V ratio, breakeven point, P/V Graph and margin of safety are discussed and illustrated. Applications of marginal costing technique in various managerial decisions such as limiting factor analysis, make/buy decision, decision on alternative methods of production, shut-down decision, accept/reject decision and optimum product/sales mix are discussed and illustrated. It also discusses point of indifference cost, cash BEP, composite BEP and differential cost analysis. Chapter-5 Budgetary Control: This chapter covers types of budgets including Zero-based budget, objectives, merits and demerits of budgets, preparation of different

operational budgets and flexible budgets. Chapter-6 Standard Costing and Variance Analysis: This chapter covers standard costing and its objectives, advantages and disadvantages, steps in standard costing and variance analysis and various types of variances. Chapter-7 Activity Based Costing (ABC):. This chapter covers important steps involved in implementation of ABC, cost activities, types of activities, cost drivers, activity cost pool and its different types, pre-requisites for effective implementation of ABC and merits and demerits of ABC. Chapter-8 Misc. Topics: The purpose of this chapter is to familiarize the reader with various allied aspects of cost management such as management reporting, segmental reporting, cost control and cost reduction, cost and management audit, target costing, life cycle costing and Balanced Score Card. The book has grown out of lecture notes and other materials prepared and updated for the MBA degree of various universities for the last few years. Hence, the book is sure to help the students of MBA, M.Com, MFA, MIB, BBM, B.Com. etc. who wish to study Cost Management as a part of their specialization in the area of finance. Readers are requested to mail the suggestions or corrections if any in the book to yaragolpb@gmail.com

We are pleased to present this Global Edition, which has been developed specifically to acquaint students of business with the fundamental tools of managerial accounting and to promote their understanding of the dramatic ways in which business is changing. The emphasis is on teaching students to use accounting information to best manage an organization. Each chapter is written around a realistic business or focus company that guides the reader through the topics of that chapter. There is significant coverage of contemporary topics such as activity-based costing, target costing, the value chain, customer profitability analysis, and throughput costing while also including traditional topics such as job-order costing, budgeting, and performance evaluation. Many of the real-world examples in the Management Accounting Practice boxes have been revised and updated to make them more current and several new examples have been added. This Global Edition has been adapted to meet the needs of courses outside the United States and does not align with the instructor and student resources available with the U.S. edition.

FM 1-06 is the Army's keystone manual for Financial Management (FM). Its purpose is to provide the authoritative doctrine on how FM supports the full spectrum of operations as a component of the theater sustainment warfighting function. The intent of this manual is to describe how FM complements combat power, supports strategic and operational reach, and enables endurance. This manual provides the foundation of FM doctrine, organizations, training, materiel, leadership and education, personnel, and facilities development to support the modular Army, and establishes how FM operations are integrated and synchronized into the overall operations process - plan, prepare, execute and assess. A less-expensive grayscale paperback version is available. Search for ISBN 9781680922936. Principles of Accounting is designed to meet the scope and sequence requirements of a two-semester accounting course that covers the fundamentals of financial and managerial accounting. This book is specifically designed to appeal to both accounting and non-accounting majors, exposing students to the core concepts of accounting in familiar ways to build a strong foundation that can be applied across business fields. Each chapter opens with a relatable real-life scenario for today's college student. Thoughtfully designed examples are presented throughout each chapter, allowing students to build on emerging accounting knowledge. Concepts are further reinforced through applicable connections to more detailed business processes. Students are immersed in the "why" as well as the "how" aspects of accounting in order to reinforce concepts and promote comprehension over rote memorization.

Covers the strategic management topics in cost accounting. This title helps students to understand about the management and the role of cost accounting in helping an organization succeed. It addresses issues such as: How does a firm compete? and What type of cost management information is needed for a firm to succeed?
