The first is Mission -- what is Christian Mission? As mentioned, evangelism, theology, social justice are all discussed. The second chapter is Evangelism, and the priority and meaning (even definitions) of evangelism, and what we as Christians should be doing. This leads into dialogue, and how we are to dialogue with others.

Michael Goheen gives us a full-scale introduction to mission studies today in its biblical, theological and historical dimensions. Goheen covers the full horizon of major issues in mission, including its global, urban and holistic contexts. This text shows how the missional church encounters the pluralism of Western culture and global religions.

A History of Christian Missions traces the expansion of Christianity from its origins in the Middle East to Rome, the rest of

World and the colonial world, and assesses its position as a major religious force worldwide. Many of the world's religions have not actively sought converts, largely because they have been too regional in character. Buddhism, Islam and Christianity, however, are the three chief exceptions to this, and Christianity in particular has found a home in almost every country in the world. Professor Stephen Neill's comprehensive and authoritative survey examines centuries of missionary activity, beginning with Christ and working through the Crusades and the colonization of Asia and Africa up to the present day, concluding with a shrewd look ahead to what the future may hold for the Christian Church.

In this brilliant and tightly reasoned volume, well-known author Lesslie Newbigin analyzes the sources of truth

and authority in the modern world. He acknowledges that modern society treats all claims to authority with suspicion. With what authority, then, can and does the Christian church present the gospel to modern society? Bible, tradition, reason, and experience are all used in answering this question, and this book seeks to examine their proper use and their relations to each other.

Christian mission in previous centuries often drew on images of imperial expansion and war. Today, foreign mission in so-called restricted-access countries is envisioned as a kind of holy espionage. But are “civilizing” crusades and warfare, even covert, appropriate images to associate with the good news of Jesus Christ? In *Picturing Christian Witness*, missiologist Stanley Skreslet searches for new, more holistic images of

World from Scripture. Skreslet undertakes a novel exegetical study of mission in the New Testament that focuses on the first followers of Jesus. Skreslet highlights five actions that depict the witness of these disciples: announcing good news, sharing Christ with friends, interpreting the gospel, shepherding, and building/planting. After carefully examining key biblical passages, he draws out the implications of these five images for the theology of mission and lets each image take shape visually through an array of Western and non-Western art. *Picturing Christian Witness* will provoke students of mission and of the Bible to imagine what mission will look like when actively embodied by contemporary disciples of Jesus.

A deeper understanding of the grand history of mission leads to a faithful

expression of God's mission today. From the beginning, God's mission has been carried out by people sent around the world. From Abraham to Jesus, the thread that weaves its way throughout Scripture is a God who sends his people across the world, proclaiming his kingdom. As the world has evolved, Christian mission continues to be a foundational tradition in the church. In this one-volume textbook, Edward Smither weaves together a comprehensive history of Christian mission, from the apostles to the modern church. In each era, he focuses on the people sent by God to the ends of the earth, while also describing the cultural context they encountered. Smither highlights the continuity and development across thousands of years of global mission.

World students, pastors, and mission committees understand contemporary Christian mission historically, biblically, and theologically. Scott Sunquist, a respected scholar and teacher of world Christianity, recovers missiological thinking from the early church for the twenty-first century. He traces the mission of the church throughout history in order to address the global church and offers a constructive theology and practice for missionary work today. Sunquist views spirituality as the foundation for all mission involvement, for mission practice springs from spiritual formation. He highlights the Holy Spirit in the work of mission and emphasizes its trinitarian nature. Sunquist explores mission from a primarily theological--rather than sociological--perspective, showing that the whole of Christian theology depends on and feeds into mission. Throughout the

book, he presents Christian mission as our participation in the suffering and glory of Jesus Christ for the redemption of the nations.

Presents a historical overview of the main developments in the theory and practice of Christian mission in the twentieth century.
