CLIMB challenges the negative connotations associated with "stewardship" and invites congregations to completely change the conversation around this critically important topic. Instead of talking about the needs of the church budget, CLIMB suggests a discovery of your congregation's compelling vision for ministry. Instead of selecting your stewardship leaders by default, CLIMB encourages the development of strong leadership through setting clear and challenging expectations. CLIMB involves changing the entire culture of your congregation to one of gratitude, where conversations revolve around sharing God's abundance rather than holding on fearfully. CLIMB encourages the sharing of ministry stories rather than pledging to a budget. And, finally, CLIMB asserts that if you truly believe expressing generosity results in a deeper connection to God, you have no choice but to boldly ask others to become more generous givers.

"Give over \$100 today and get this personalized state-of-the-art fountain pen free!" "Become a gold sponsor and your name will be featured on our exclusive Wall of Fame!" "Send in your donation by December 31st and enjoy the benefits of giving on your next tax return!" Who hasn't heard fundraising gimmicks like these? Or, who hasn't used these gimmicks on others? As Wes Willmer writes, generosity is the natural outcome of God's transforming work in individuals when they are conformed to the image of Christ. Fundraising and giving are not simply drops in the bucket. Capital campaigns and raising funds go deeper than the money. They are spiritual activities in becoming more like Christ. A Revolution in Generosity is a work by some of the best scholars and practitioners on the subject of funding Christian organizations. As Willmer writes, "The foundation for realizing a revolution in generosity is understanding the biblical view of possessions, generosity, and asking for resources." With over twenty expert contributors, this book is a must-read for organizations striving to rid themselves of secular, asking practices and gain an eternal approach.

The classic manual for raising capital funds. This edition includes new material on the discernment phase of the campaign, annual stewardship campaigns,

and establishing church planned-giving programs.

Based on extensive research, this volume offers insight and help on the key fiscal topics confronting church leaders today, including: Why is the church so uneasy with the topic of money? Is there a difference between stewardship and fundraising? How can we motivate giving? Should we invest church funds? It tackles the resistance, fears, and difficulties about money common in congregations. The book is must reading for lay leaders and anyone in pastoral ministry today.
