Using newly released records Colour Bar recounts a shameful period in British history, of overt racism on the streets of London and the corridors of Whitehall, of appeasement to apartheid South Africa and triumphantly the determination of the Bangwato people whose loyalty finally brought Seretse and Ruth back to their rightful home where together they created the foundations for what has become a uniquely successful African state.

Sir Seretse Khama, the first President of Botswana and heir apparent to the kingship of the Bangwato people, brought independence and great prosperity to his nation after colonial rule. But for six long years from 1950, Seretse had been forced into exile in England, banned from his own country. His crime? To fall in love and marry a young, white English girl, Ruth Williams. Delving into newly released records, Susan Williams tells Seretse and Ruth's story - a shocking account of how the British Government conspired with apartheid South Africa to prevent the mixed-race royal couple returning home. But it is also an inspiring, triumphant tale of hope, courage and true love as with tenacity and great dignity Seretse and Ruth and the Bangwato people overcome prejudice in their fight for justice.

He was the heir to an African kingdom. She was a white English insurance clerk. When they met and fell in love, it would change the world. This is the inspiring true story of Seretse Khama and Ruth Williams, whose marriage sent shockwaves through the establishment, defied an empire - and, finally, triumphed over the prejudices of their age. 'Reading the book, I realised that I had never seen an African love story of this cinematic scope. It spoke to me as an African, as a man, as a romantic' David Oyelowo 'A story of forgiveness and healing ... as relevant today as when the whole drama was being played out' Alexander McCall Smith 'Unmissable ... London 1945: the heir to the largest tribe of Bechuanaland (later Botswana) arrives in Britain. Seretse Khama, an urbane 24-year-old was welcomed into the elite world of Oxford. But when he fell in love with Englishwoman Ruth Williams, the full force of colonial power was brought to bear to prevent their marriage.

In 1948, a young white English woman, Ruth Williams, made headline news all over the world. For she had met, fallen in love with, and married Seretse Khama, an African prince and heir to the chieftainship of a tribe of more than 100,000 people-the Bamangwato. At first, the marriage was no more welcome in Africa than in government circles in London. Within a year of their wedding, the young couple had provoked an astonishing series of events that had never been explained. The British government was determined to prevent Seretse taking his rightful place at the head of his tribe. The Bamangwato, to their credit, accepted the marriage and welcomed Ruth as their queen. Attlee's Labour government embarked on what appeared to be a vendetta against them, robbing Seretse of his birthright and his people of their chief. In the process, Seretse and Ruth were forcibly separated while she awaited the birth of their first child. Now having access to Ministerial telegrams and Cabinet documents, the author can tell the full story. Includes photos provided by Lady Ruth Khama.

In 1966 the Republic of Botswana came into existence, and this is the tale of how one family played a central role in the country's development. This biography focuses on the Khama family, and in particular, Seretse Khama: a statesman, chief, husband, and father. Dwelling on the last two aspects of this important figure, this account demonstrates how, in the face of great difficulties and opposition, Sereste and Ruth-a black man and a white woman-were united in a fruitful marriage that showed the world how people from different traditions might live happily. In many respects, their personal story, so movingly recounted here, mirrors the beliefs of the country itself, for Botswana has always stressed the importance of social harmony.

NEW YORK TIMES BESTSELLER • The knockdown, drag-out, untold story of the other scandal that rocked Nixon's White House, and reset the rules for crooked presidents to come-with new reporting that expands on Rachel Maddow's Peabody Award-nominated podcast "Both a thriller and a history book, Bag Man is a triumph of storytelling."-Preet Bharara, New York Times bestselling author of Doing Justice and host of the podcast Stay Tuned with Preet Is it possible for a sitting vice president to direct a vast criminal enterprise within the halls of the White House? To have one of the most brazen corruption scandals in American history play out while nobody's paying attention? And for that scandal to be all but forgotten decades later? The year was 1973, and Spiro T. Agnew, the former governor of Maryland, was Richard Nixon's second-in-command. Long on firebrand rhetoric and short on political experience, Agnew had carried out a bribery and extortion ring in office for years, when-at the height of Watergate-three young federal prosecutors discovered his crimes and launched a mission to take him down before it was too late, before Nixon's impending downfall elevated Agnew to the presidency. The self-described "counterpuncher" vice president did everything he could to bury their investigation: dismissing it as a "witch hunt," riling up his partisan base, making the press the enemy, and, with a crumbling circle of loyalists, scheming to obstruct justice in order to survive. In this blockbuster account, Rachel Maddow and Michael Yarvitz detail the investigation that exposed Agnew's crimes, the attempts at a cover-up-which involved future president George H. W. Bush-and the backroom bargain that forced Agnew's resignation but also spared him years in federal prison. Based on the award-winning hit podcast, Bag Man expands and deepens the story of Spiro Agnew's scandal and its lasting influence on our politics, our media, and our understanding of what it takes to confront a criminal in the White House.

One of the outstanding mysteries of the twentieth century, and one with huge political resonance, is the death of Dag Hammarskjold and his UN team in a plane crash in central Africa in 1961. Just minutes after midnight, his aircraft plunged into thick forest in the British colony of Northern Rhodesia (Zambia), abruptly ending his mission to bring peace to the Congo. Across the world, many suspected sabotage, accusing the multi-national and the governments of Britain, Belgium, the USA and South Africa of involvement in the disaster. These suspicions have never gone away. British High Commissioner Lord Alport was waiting at the airport when the aircraft crashed nearby. He bizarrely insisted to the airport management that Hammarskjold had flown elsewhere - even though his aircraft was reported overhead. This postponed a search for so long that the wreckage of the plane was not found for fifteen hours. White mercenaries were at the airport that night too, including the South African pilot Jerry Puren, whose bombing of Congolese villages led, in his own words, to 'flaming huts ...destruction and death'. These soldiers of fortune were backed by Sir Roy Welensky, Prime Minister of the Rhodesian Federation, who was ready to stop at nothing to maintain white rule and thought the United Nations was synonymous with the Nazis. The Rhodesian government conducted an official inquiry, which blamed pilot error. But as this book will show, it was a massive cover-up that suppressed and dismissed a mass of crucial evidence, especially that of African eye-witnesses. A subsequent UN inquiry was unable to rule out foul play - but had no access to the evidence to show how and why. Now, for the first time, this story can be told. Who Killed Hammarskjold follows the author on her intriguing and often frightening journey of research to Zambia, South Africa, the USA, Sweden, Norway, Britain, France and Belgium, where she unearthed a mass of new and hitherto secret documentary and photographic evidence. At the heart of this book is Hammarskjold himself - a courageous and complex idealist, who sought to shield the newly-independent nations of the world from the predatory instincts of the Great Powers. It reveals that the conflict in the Congo was driven not so much by internal divisions, as by the Cold War and by the West's determination to keep real power from the hands of the post-colonial governments of Africa. It shows, too, that the British settlers of Rhodesia would maintain white minority rule at all costs.
