The nightmare of the Transition has given way to a world in chaos. The battlelines of World War II are being redrawn in dangerous and unpredictable ways, leaving the Allied forces scrambling for control and the Axis forces with undreamt-of power. But the military crisis is only the beginning. An awareness of how their future unfolds is sweeping the world, and the people of 1942 are split between clamouring for change and the freedoms their descendants enjoy, and resisting it to protect the values of their society. Then Japan invades Australia, foreign agents begin a campaign of terror in the USA, and Germany prepares for an all-out attack on Britain. The twenty-first-century forces must resort to the most extreme measures yet...

It's World War II and the A-bomb is here to stay. The only question: Who's going to drop it first? The Battle of Midway was forever transformed by the devastating appearance of a U.S.-led naval task force from the twenty-first century. Since that day, state-of-the-art warships have prowled the Pacific, armed with the latest instruments of mass destruction, as the warring powers of 1942 scramble to be first to wield the weapons of tomorrow against their enemies. Russia and Germany form a deadly alliance, while Admiral Yamamoto moves to seize Hawaii and invade Australia. Suddenly it's a whole new war with unimaginable high-tech tools, and high-stakes inter-national betrayals from Tokyo to Washington to the Kremlin. As the world trembles on the brink of annihilation, Churchill, Stalin, Roosevelt, Hitler, and Tojo confront extreme

choices and a future rife with possibilities—all of them apocalyptic.

In the sequel to *Weapons of Choice*, both the Axis and Allies have the use of nuclear weapons, computer technology, and advanced knowledge of the supposed course of the war, as Hitler and Stalin form an alliance, the Japanese invade Hawaii and Australia, and the Nazis launch an all-out assault on Britain. Reprint.

“The action is nonstop, the characters very real—and very different from each other—and, to coin a phrase, it makes you think.”—S. M. Stirling, author of *Island in the Sea of Time* In the year 2021, a multinational fleet—experimenting with untested weapons technology—pitched through time, crash-landing in 1942. The world is thrown into chaos as Roosevelt, Hitler, Churchill, Tojo, and

Stalin scramble to adapt to new, high-tech killing tools, and twenty-first-century ways of war. For “uptimers” like Britain’s Prince Harry and the men and women who serve aboard the supercarrier USS Hillary Clinton, war is a constant struggle with their own downtime allies, who are mired in ignorance and bigotry. As the Allies counter the Nazi assault and set off for the coast of France, Japan begins to buckle, soon every battle will be played out in a lethal dance of might and intelligence, unholy alliances and desperate gambles, and each clash will be fought with the ultimate weapon; knowledge from the future. Thanks to the historical records, all sides know that two superpowers will emerge while the losers will be pounded into submission. But time has shifted on its axis, so none know who will survive or how peace will take hold in a world turned upside down. These are the questions that John

Birmingham brilliantly answers in his critically acclaimed adventure of war and imagination.

In a first installment of a three-part alternate history epic, America's World War II fleet is decimated by a multi-national task force sent back in time from the year 2021, forcing Admiral Nimitz and Rear Admiral Spruance to make the potentially consequential decision to fight their own possible descendants. Reprint.

Alternate history master John Birmingham unleashes an astounding new installment in his Axis of Time series: an original eBook novella that begins when the future and the past collide. The year is 1955, ten years after a battle fleet from 2021 exploded through a wormhole in space—straight into the Battle of Midway. A staggered,

war-torn world catches its balance. Uptimers, with their extraordinary technology and strange styles, mingle with the real timers. Universities study the effects on the future. And men like Prince Harry of England find themselves playing pivotal roles in a history that has already happened. Or has it? In the starkly partitioned city of Rome, spies, killers, and mafia foot soldiers cross the dividing line between Allied and Russian Zones. Somewhere in the ancient, underground catacombs two men hunt for one another. One is Stalin's personal assassin, the other a murderous, disillusioned acolyte of the Communist ideal, allied by fate and history with the OSS, MI6, and England's swashbuckling Prince Harry. Harry's own mission takes him to a glittering dinner party and a prize over which the two Russian killers are fighting—a factory owner with a terrifying secret. As the forces of West and

The Sequence of event of the Second World War was altered forever at the very moment the task force of ultra-modern stealth warships emerged from a rip in the time-space continuum. Hurlled back from 2021 to 1942 after a quantum experiment goes horribly wrong, no one could have predicted the impact of this futuristic fighting force. Chaos ensues... In the third and final gripping instalment of the Axis of Time trilogy, the revised history of the War is more alarming than ever. In this epic sci-fi adventure for fans of *The Expanse* and *Battlestar Galactica*, five intrepid heroes must unite to save civilization after a long-dormant enemy awakens and strikes a devastating blow “This jarring, engrossing story of a species-wide fight for survival is recommended for all science fiction readers.”—*Publishers Weekly* (starred review) The galaxy was once terrorized by the Sturm, a group of “species purists” intent on destroying any human with genetic or cybernetic enhancements. Fashioning themselves as the one true “Human Republic,” the Sturm cut a bloody swath across the stars, killing billions before finally being defeated and driven into the far reaches of Dark Space. Centuries of peace bred

Now on the brink of annihilation, humankind's only hope is a few brave souls who survived the initial attack: Commander Lucinda Hardy, thrust into uncertain command of the Royal Armadalen Navy's only surviving warship. Booker3, a soldier of Earth, sentenced to die for treason, whose time on death row is cut short when the Sturm attack his prison compound. Princess Alessia, a young royal of the Montanblanc Corporation, forced to flee when her home planet is overrun and her entire family executed. Sephina L'trel, the leader of an outlaw band who must call on all of her criminal skills to resist the invasion. The epic alternate history of WW2 becomes a fiery reimagining of the Cold War. Prince Harry—yes, that Prince Harry—travels through time to punch Nazis and commies and save the world. Continues the best-selling Axis of Time series.
