La Terra, forse, dovrebbe chiamarsi Mare: il pianeta Mare, con isole di terra. Il Mare non è solo immenso: è immensamente mobile, variabile, vivo, profondo, fertile, avventuroso. È dal Mare, con giocosa capriola, che comincia la parola Meraviglia. Al Mare, sul quale si muovono le storie e le memorie del mondo, Roberto Piumini dedica questa emozionante raccolta di poesie, che i disegni di Paolo d’Altan accompagnano con tratto leggero.

This book reclaims logic as a branch of philosophy, offering a self-contained and complete introduction to the three traditional systems of classical logic (term, sentence, and predicate logic) and the philosophical issues that surround those systems. The exposition is lucid, clear, and engaging. Practical methods are favored over the traditional, and creative approaches over the merely mechanical. The author’s guiding principle is to introduce classical logic in an intellectually honest way, and not to shy away from difficulties and controversies where they arise. Relevant philosophical issues, such as the relation between the meaning and the referent of a proper name, logical versus metaphysical possibility, and the conceptual content of an expression, are discussed throughout. In this way, the book is not only an introduction to the three main systems of classical logic, but also an introduction to the philosophy of classical logic.
