Entity Possession~Freeing the Energy Body of Negative Influences by Samuel Sagan, M.D. (clairvision.org) is an important examination of the energy/mind parasite phenomena by an M.D. with a great deal of clinical experience.

For centuries Eastern traditions have taken the subject of entity possession quite seriously. Ayurveda, the traditional medicine of India, recognizes bhutas or entities and their influence on mental and physical well-being, as well as the ways they can be evicted from the individual. Now, in a work that is unique in Western literature, Dr. Samuel Sagan examines the problem of these incorporeal beings that attach themselves to human beings as parasites, causing various emotional, mental and physical problems. A landmark study that presents sound analysis and treatment of this phenomenon, Entity Possession demystifies a topic that has long been overdramatized by the folklore surrounding possession and exorcism. Using actual case studies of the "hungry ghost" phenomenon, Dr. Sagan analyzes their mechanisms and motivations, presenting the facts of entity possession, and including many tips on how to dislodge these parasites from the individuals whose lives are thrown out of balance by their presence.

Understanding ecstatic spirit possession for physical and spiritual healing • Details the author’s direct experiences working with Brazilian miracle healer John of God (João de Deus) and African high shaman Credo Mutwa • Includes stories of psychic surgery, spirit possession, and shamanic healing rituals • Explains how each of us is capable of miraculous healing Margaret De Wys first became aware of ecstatic trance healing when she was a young girl fascinated by the rapture of the Holy Rollers. However, it would be decades before she would be called to explore that early fascination. At a gathering in Upstate New York thirty years later she was spontaneously possessed by a sacred Zulu necklace--a gift from one of the most powerful shamans in Africa, Vusamazulu Credo Mutwa. Frightening yet exhilarating, the experience set her on a search to understand the depths of ecstatic healing. Margaret journeys to Brazil to work with famous healer John of God (João de Deus), where she witnesses hundreds of miraculous healings through psychic surgery. During her years of spiritual service at John’s Casa, she experiences ecstatic visions, which increase her hunger for more knowledge. She begins to attend possession rituals held by Pai Lazaro, an Umbanda priest, and finds she is a natural medium to the African gods. Called through her dreams to work with Credo Mutwa, she travels to Credo’s Healing Village in Africa, where she discovers her gift as an ecstatic healer and the meaning of true faith. In sharing her journey to reach a profound understanding of ecstatic states and shamanic healing, Margaret De Wys not only gives the reader a direct experience of holiness but also reveals the potential each of us has for miraculous healing.

A comprehensive examination of the many ways the spirit world affects the material plane and our minds • Provides a detailed guide to the Afterlife and its inhabitants • Reveals the spirit influence behind many mental disorders as well as psi abilities and creative genius • Includes checklists of symptoms of spirit “overshadowing,” methods from the world’s top exorcists, and instructions on how to free unwanted spirits from the material plane We are spirits housed in a body, and just as houses can be haunted, so can people. When the living succumb to dissociative states of consciousness, they become a magnet for lost but clinging spirits. Known as jinn, dybbuk, daemon, wuqabi, or simply the undead, they hover unseen on the earth plane, ready to inhabit the most suitable body available. Documenting the life of wandering spirits and their impact on vulnerable human targets, Susan Martinez offers a radical departure from the standard psychological explanations for a host of pathological behaviors--including multiple personality, autism, epilepsy, migraines, obsessive compulsive disorder, depression, schizophrenia, anxiety, PTSD, self-destructive urges, and strange outbursts--and reveals that hallucinations are often true impressions of spirit input. Martinez explains how mental health comes down to the delicate balance between self-control and spirit-control. When trauma triggers an escape response, the soul takes flight, leaving the mind susceptible to possession by discarnate entities. However, the spirit world can also bestow gifts upon those whose psyches are open, such as in the case of mediums, shamans, people who communicate with angels, and many of the world’s creative geniuses. Martinez presents “overshadowing” by spirits as a universal, cross-cultural phenomenon, documenting modern and traditional accounts as well as corroborating indigenous beliefs. She examines soul decay, soul travel both before and after death, as well as how knowledge of the spirit world can offer positive treatments for disorders like schizophrenia and autism. Providing a detailed guide to the spirit world and its inhabitants, the author offers checklists of symptoms of “overshadowing,” methods from the world’s top exorcists, and instructions on how to free spirits so they can continue their journey into the beyond--all the tools necessary to forearm us against soul snatchers and other enemies of the Light.

This book studies the phenomemon of spirit possession in the Spiritual Baptist Faith and Orisha Work of the West Indies, examining the similarities and interactions between the different religions of differing populations.

The word "possession" is anything but transparent, especially as it developed in the context of the African Americas. There it referred variously to spirits, material goods, and people. It served as a watershed term marking both transactions in which people were made into things--via slavery--and ritual events by which the thingification of people was revised. In Spirited Things, Paul Christopher Johnson gathers together essays by leading anthropologists in the Americas that reopen the concept of possession on these two fronts in order to examine the relationship between African religions in the Atlantic and the economies that have historically shaped--and continue to shape--the cultures that practice them. Exploring the way spirit possessions were framed both by material things--including plantations, the Catholic church, the sea, and the phonograph--as well as by the legacy of slavery, they offer a powerful new way of understanding the Atlantic world.

In her innovative new book, Kalpana Ram reflects on the way spirit possession unsettles some of the foundational assumptions of modernity. What is a human subject under the varied conditions commonly associated with possession? What kind of subjectivity must already be in place to allow such a transformation to occur? How does it alter our understanding of memory and emotion if these assail us in the form of ghosts rather than as attributes of subjective experience? What does it mean to worship deities who are afflictive and capricious, yet bear an intimate relationship to justice? What is a "human" body if it can be taken over by a whole array of entities? What is agency if people can be "claimed" in this manner? What is gender if, while possessed, a woman is a woman no longer? Drawing on spirit possession among women and the rich traditions of subaltern religion in Tamil Nadu, South India, Ram concludes that the basis for constructing an alternative understanding of human agency need not rest on the usual requirements of a fully present consciousness or on the exercise of choice and planning. Instead of relegating possession, ghosts, and demons to the domain of the exotic, Ram uses spirit possession to illuminate ordinary experiences and relationships. In doing so, she uncovers fundamental instabilities that continue to haunt modern formulations of gender, human agency, and political emancipation. Fertile Disorder interrogates the modern assumptions about gender, agency, and subjectivity that underlie the social improvement projects circulating

in Tamil Nadu, assumptions that directly shape people's lives. The book pays particular attention to projects of family planning, development, reform, and emancipation. Combining ethnography with philosophical argument, Ram fashions alternatives to standard post-modernist and post-structuralist formulations. Grounded in decades of fieldwork, ambitious and wide ranging, her work is conceived as a journey that makes incursions into the unfamiliar, then returns us to the familiar. She argues that magic is not a monopoly of any one culture, historical period, or social formation but inhabits modernity—not only in the places, such as cinema and sound recording, where it is commonly looked for, but in "habit" and in aspects of everyday life that have been largely overlooked and shunned. Fertile Disorder will be of interest to a wide range of scholars in anthropology, religion, gender studies, subaltern studies, and post colonial theory.

For two decades, William Baldwin has been a pioneer in the ever-expanding therapeutic fields of Spirit Releasement, Past Life Regression, and Soul-Mind Fragmentation. In his Florida practice, he uses these therapies routinely to help patients who suffer from Dissociative Trance and Dissociative Identity (formerly called Multiple Personality) Disorders. Healing Lost Souls explains the attributes of each therapy in everyday language, and provides dozens of case studies to illustrate its clinical use. Likening his work to the ancient practice of shamanism, Baldwin has found that psychological disorders are often rooted in past life traumas, the interference of attached entities of various origins, and the fragmentation of one's soul. Baldwin stresses the importance of active patient participation throughout the stages of regression, as well as the need to treat encountered entities with respect, since they are often mere lost souls as bewildered and frightened as the patients themselves.

Noted psychologist Dr. Edith Fiore explains how to detect spirit possession in yourself and others, how to protect yourself from entities, how to release your home from displaced spirits, and how to perform a deposal. Filled with shocking case histories.
