emotional life of congregations. Edwin H. Friedman shows how the same understanding of family process that can aid clergy in their pastoral role also has important ramifications for negotiating congregational dynamics and functioning as an effective leader. Clergy from diverse denominations, as well as family therapists and counselors, have found that this book directly addresses the dilemmas and crises they encounter daily. It is widely used as a text in courses on family systems and pastoral care.

An acclaimed, influential work now available in paper for the first time, this bestselling book applies the concepts of systemic family therapy to the emotional life of congregations. Edwin H. Friedman shows how the same understanding of family process that can aid clergy in their pastoral role also has important ramifications for negotiating congregational dynamics and functioning as an effective leader. Clergy from diverse denominations, as well as family therapists and counselors, have found that this book directly addresses the dilemmas and crises they encounter daily. It is widely used as a text in courses on pastoral care, leadership, and family systems.

Examines the structure and management of

Online Library Generation To Generation Family Process In Church And Synagogue

family-owned businesses, from small companies to multinational conglomerates, discussing how they differ from public companies and how they move through generational changes in leadership

Ten years after his death, Edwin Friedman's best-selling *A Failure of Nerve* continues to offer insights into leadership that are more urgently needed than ever, and this revised, anniversary edition is essential reading for all leaders, be they parents or presidents, corporate executives or educators, religious superiors or coaches, healers or generals, managers or clergy. Friedman was the first to tell us that all organizations have personalities, like families, and to apply the insights of family therapy to churches and synagogues, rectors and rabbis, and politicians and teachers. His understandings about our regressed, "seatbelt society," oriented toward safety rather than adventure, help explain the sabotage that leaders constantly face today. Suspicious of the "quick fixes" and instant solutions that sweep through our culture only to give way to the next fad, he argued for strength and selfdifferentiation as the marks of true leadership. His formula for success is more maturity, not more data; stamina, not technique; and personal responsibility, not empathy. *A Failure of Nerve* was unfinished at the time of Friedman's death and originally published in a limited edition. This new

edition cleans up some oversights in the original and brings his life-changing insights and challenges to a new generation of readers. "Reading this book is like discovering an unpublished Beethoven sonata or a missing play of Shakespeare. Ed Friedman was one of our most brilliant, original, and provocative thinkers across the fields of therapy, ministry, and organizational leadership." —Professor William J. Doherty, Director, Marriage and Family Therapy Program, University of Minnesota

Whether he is interviewing God ("I must be the first since Moses to be allowed into your presence"), preaching on "marriage as music," or reflecting on a visit to his parents' grave, Friedman always has the power to surprise us and invite us to change. This new collection of Edwin Friedman's writings, most of them unpublished, reveal a different side of this rabbi, teacher, and leadership coach who caused a revolution in viewing human relationships with Generation to Generation. Organized into life stages, specifically the journey from young adulthood to maturity and death, *What Are You Going to Do with Your Life?* captures Friedman's signature wit and playfulness as he cuts straight to the heart of human growth and relationships. Throughout his life, Friedman eloquently applied the insights of family therapy to churches and synagogues, organizations and businesses—and, of course, to families themselves. He

energized and delighted a wide public in his lifetime and continues to engage us with *What Are You Going to Do with Your Life?*, an essential reader for those seeking lifechanging insights.

In 1997, family business owner Mitchell Kaneff became the CEO of his own family's business, Arkay Packaging. Negotiating complex succession issues, family politics and emotional fallout with relatives he'd known all his life, Mitchell became convinced there had to be a more effective - and less stressful - way to alleviate the powerful transition themes that can so often derail a family business. Mitchell emerged successful - although not unscathed - and the idea of writing about his experiences to help other people took hold. The result: *"Taking Over: Insider Tips from a Third Generation CEO,"* a compilation of the many experiences - both his own and those of his friends and associates - Mitchell recorded over the years. In *"Taking Over,"* Mitchell brings fresh insights and practical tools to anyone involved in family businesses today - regardless of their role. With its unique use of family anecdotes, combined with Mitchell's strong business acumen, *"Taking Over"* is a must-read for anyone involved in - or interested in becoming a part of - a family business today.

and on his own many years of counseling experience, Peter Steinke shows how to recognize and deal with the emotional roots of such issues as church conflict, leadership roles, congregational change, irresponsible behavior, and the effects of family of origin on current relationships.

Edwin H. Friedman has woven 24 illustrative tales that offer fresh perspectives on familiar human foibles and reflect the author's humor, pathos, and understanding. Friedman takes on resistance and other "demons" to show that neither insight, nor encouragement, nor intimidation can in themselves motivate an unmotivated person to change. These tales playfully demonstrate that new ideas, new questions, and imagination, more than accepted wisdom, provide each of us with the keys to overcoming stubborn emotional barriers and facilitating real change both in ourselves and others. Thought-provoking discussion questions for each fable are included.

From James L. Griffith, well known for his work on harnessing the healing potential of religion and spirituality, this book helps clinicians to intervene effectively in situations where religion is causing harm. Vivid examples illustrate how religious beliefs and practices may propel suicide, violence, self-neglect, or undue suffering in the face of medical or emotional challenges.

Griffith also unravels the links between psychiatric illness and distorted religious experience. He demonstrates empathic, respectful ways to interview patients who disdain contact with mental health professionals, yet whose religious lives put themselves or others at risk. The book incorporates cutting-edge research on the psychology of religion and social neuroscience.
