problems into simple, analytically manageable parts. This analytical style, while not ultimately more demanding than the styles of thinking in other disciplines, feels unfamiliar to most students and requires practice. Our experience has taught us that what first-year economics students want most from a FlexText is help in mastering course material to do well on examinations. We have developed this FlexText to respond specifically to that demand.

Most students go to work in a business setting after graduation and, although business students will have multiple opportunities to see economic principles in action, students from other disciplines may not. The book aims to provide those students with an understanding of
