Pope Benedict XVI's book 'Jesus of Nazareth: The Infancy Narratives' is a great encouragement to faith and an education into Jesus' Birth and early years. I found the discussion of The Virgin Birth, explanations around the Roman Census, the reasons for the differing portrayals of Joseph and Mary in Matthew's and Luke's Gospel respectively all very convincing.

Analyzes the Gospel accounts of Jesus's infancy and childhood, detailing how the stories of his youth are as relevant today as they were then they were documented.

The New York Times bestselling final volume in the Pope's Jesus of Nazareth series, detailing how the stories of Jesus' infancy and childhood are as relevant today as they were two thousand years ago. In 2007, Joseph Ratzinger published his first book as Pope Benedict XVI in order "to make known the figure and message of Jesus." Now, the Pope focuses exclusively on the Gospel accounts of Jesus' life as a child. The root of these stories is the experience of hope found in the birth of Jesus and the affirmations of surrender and service embodied in his parents, Joseph and Mary. This is a story of longing and seeking, as demonstrated by the Magi searching for the redemption offered by the birth of a new king. It is a story of sacrifice and trusting completely in the wisdom of God as seen in the faith of Simeon, the just and devout man of Jerusalem, when he is in the presence of the Christ child. Ultimately, Jesus' life and message is a story for today, one that speaks to the restlessness of the human heart searching for the sole truth which alone leads to profound joy.

"This book is . . . my personal search "for the face of the Lord." "Benedict XVI In this bold, momentous work, the Pope—in his first book written as Benedict XVI—seeks to salvage the person of Jesus from recent "popular" depictions and to restore Jesus' true identity as discovered in the Gospels. Through his brilliance as a theologian and his personal conviction as a believer, the Pope shares a rich, compelling, flesh-and-blood portrait of Jesus and incites us to encounter, face-to-face, the central figure of the Christian faith. From Jesus of Nazareth: ". . . the great question that will be with us throughout this entire book: But what has Jesus really brought, then, if he has not brought world peace, universal prosperity, and a better world? What has he brought? The answer is very simple: God. He has brought God! He has brought the God who once gradually unveiled his countenance first to Abraham, then to Moses and the prophets, and then in the wisdom literature—the God who showed his face only in Israel, even though he was also honored among the pagans in various shadowy guises. It is this God, the God of Abraham, of Isaac, and of Jacob, the true God, whom he has brought to the peoples of the earth. He has brought God,

and now we know his face, now we can call upon him. Now we know the path that we human beings have to take in this world. Jesus has brought God and with God the truth about where we are going and where we come from: faith, hope, and love.[]

This book is an utterly brilliant example of Benedict XVI at his very best . As a Christian apologist and exegete he rightly holds the highest position in the Church but as a teacher and intellectual evangelist he also excels . His deep understanding, novel insights, and clear exposition, make his work easy and rewarding to read . Anyone wanting an introduction to his work should read this and savour it . Anyone wanting an introduction to Christian thought should buy it. His literary skills alone, which transcend translation, are very considerable and enjoyable in their own right . His forensic examination of historical and theological arguments, his breadth of reading, and his ability to bring new conclusions to light are a joy .

Based on Pope Benedict XVI's weekly teaching on the relationship between Christ and the Church, this book tells the drama of Jesus' first disciples - his Apostles and their associates - and how they spread Jesus' message throughout the ancient world. Far from distorting the truth about Jesus of Nazareth, insists Pope Benedict, the early disciples remained faithful to it, even at the cost of their lives. Beginning with the Twelve as the foundation of Jesus' re-establishment of the Holy People of God, Pope Benedict examines the story of the early followers of Christ. He draws on Scripture and early tradition to consider such important figures as Peter, Andrew, James and John, and even Judas Iscariot. Benedict moves beyond the original Twelve to discuss Paul of Tarsus, the persecutor of Christianity who became one of Jesus' greatest disciples. Also considered are Stephen, the first Christian martyr, Barnabas, Timothy, Titus, the wife and husband "team" of Priscilla and Aquila, and such key women figures as Mary, the Mother of Jesus, Mary Magdalene, and Phoebe. Jesus, the Apostles and the Early Church is a fascinating journey back to the origins of Christianity. It reveals how Jesus' earliest disciples faithfully conveyed the truth about the "Jesus of history" and how they laid the foundations for the Church, through whom people today can know the same Jesus.

Presents a series of meditations on Christian life, focusing on such events of the church year as Advent, Lent, and Corpus Christi, and discussing such topics as the nature of peace and the relationship between spirit and matter.

Pope Benedict XVI writes eloquently and persuasively about the importance for followers of Christ to understand well what they believe in order to live as a serious Christian in today's secular world.

This easy-to-use companion study guide helps the reader who approaches Pope Benedict's Jesus of Nazareth, Part Two without the benefit of extensive theological or biblical training. The goal is not to replace Benedict's book but to make it more accessible, more fruitful for the average reader-whether lay, religious or cleric.
