her twenties. At thirty, she was CEO of a charity working with fragile democracies in Africa. She had married "the best-looking man I'd ever kissed" and given birth to twin boys. The future was bright. But, aged thirty-four, Kate was diagnosed with advanced colon cancer, and died on Christmas Day 2014, two years later. She began to write, as a gift to herself, a reminder that she could create even as her body tried to self-destruct. These are her reflections on the wonder to be found in the everyday, the importance of friendship and love, and how to fill your life with hope and joy even in the face of tragedy.

transformed by the tenuous resolve to reach out of the darkness toward fragments of light. Cancer stole everything from Ceelie—her peace of mind, her selfimage, perhaps even her twenty-three-year marriage to her college sweetheart, Nate. Without the support of Darlene, her quirky elderly friend, she may not have been able to endure so much loss. So when Darlene's own prognosis turns dire, Ceelie can't refuse her seemingly impossible request—to find a WWII paratrooper named Cal, the father who disappeared when Darlene was an infant, leaving a lifetime of desolation in his wake. The search that begins in the farmlands of Missouri eventually leads Ceelie to a small town in Normandy, where she uncovers the harrowing tale of the hero who dropped off-target into occupied France. Alternating between Cal's D-Day

One day he was a doctor treating the dying, and the next he was a patient struggling to live. And just like that, the future he and his wife had imagined evaporated. When Breath Becomes Air chronicles Kalanithi's

transformation from a naïve medical student “possessed,” as he wrote, “by the question of what, given that all organisms die, makes a virtuous and meaningful life” into a neurosurgeon at Stanford working in the brain, the most critical place for human identity, and finally into a patient and new father confronting his own mortality. What makes life worth living in the face of death? What do you do when the future, no longer a ladder toward your goals in life, flattens out into a perpetual present? What does it mean to have a child, to nurture a new life as another fades away? These are some of the questions Kalanithi wrestles with in this profoundly moving, exquisitely observed memoir. Paul Kalanithi died in March 2015, while working on this book, yet his words live on as a guide and a gift to us all. “I began to

realize that coming face to face with my own mortality, in a sense, had changed nothing and everything,” he wrote. “Seven words from Samuel Beckett began to repeat in my head: ‘I can’t go on. I’ll go on.’” When *Breath Becomes Air* is an unforgettable, life-affirming reflection on the challenge of facing death and on the relationship between doctor and patient, from a brilliant writer who became both.

Life she receives a call that her dog is about to be destroyed at the pound. Except she doesn't own a dog. The shelter is adamant that the microchip embedded in the canine with her name and address makes it hers. Evelyn recognizes the dog as one owned by archaeologist John Coyote because she was commissioned to draw the two of them. The simple solution is to return the dog to his owner—but she arrives only to discover John's murdered body. As Evelyn herself becomes a target, she crosses paths with undercover FBI agent Sawyer Price. The more he gets to know her, the more personally invested he becomes in keeping her safe. Together, they're desperate to find the links between so many disparate pieces. And the clock is ticking. "Over the years, Carrie has mastered forensic art, fine art, and her own

From the New York Times bestselling author of *All the Missing Girls* and *The Perfect Stranger* comes a suspenseful psychological mystery about one girl's search to uncover the truth behind her ex-boyfriend's death. Perfect for fans of *We Were Liars* and *13 Reasons Why*. Jessa Whitworth knew she didn't belong in her ex-boyfriend Caleb's room. But she couldn't deny that she was everywhere--in his photos, his neatly folded T-shirts, even the butterfly necklace in his jeans pocket . . . the one she gave him for safe keeping on that day. His mother asked her to pack up his things--even though she blames Jessa for his accident. How could she say no? And maybe, just maybe, it will help her work through the guilt she feels about their final moments together. But as Jessa begins to box up the pieces of Caleb's life, they trigger memories that

Life After Dark, a rich and revelatory memoir about writing and running, and the integral impact both have made on his life. In 1982, having sold his jazz bar to devote himself to writing, Haruki Murakami began running to keep fit. A year later, he'd completed a solo course from Athens to Marathon, and now, after dozens of such races, not to mention triathlons and a slew of critically acclaimed books, he reflects upon the influence the sport has had on his life and—even more important—on his writing. Equal parts training log, travelogue, and reminiscence, this revealing memoir covers his four-month preparation for the 2005 New York City Marathon and includes settings ranging from Tokyo's Jingu Gaien gardens, where he once shared the course with an Olympian, to the Charles River in Boston among young women who outpace

Life. Through this marvellous lens of sport emerges a cornucopia of memories and insights: the eureka moment when he decided to become a writer, his greatest triumphs and disappointments, his passion for vintage LPs, and the experience, after the age of fifty, of seeing his race times improve and then fall back. By turns funny and sobering, playful and philosophical, *What I Talk About When I Talk About Running* is both for fans of this masterful yet guardedly private writer and for the exploding population of athletes who find similar satisfaction in distance running.
