Origins and development "Night Train" has a long and complicated history. The piece's opening riff was first recorded in 1940 by a small group led by Duke Ellington sideman Johnny Hodges under the title "That's the Blues, Old Man". Ellington used the same riff as the opening and closing theme of a longer-form composition, "Happy-Go-Lucky Local", that was itself one of four parts of his Deep ...

"Nightrain" is a song by the American rock band Guns N' Roses. It is the third song on the band's debut studio album, Appetite for Destruction. Although it was released as a single, the song was not included in their best-of album. It reached #93 on the US Billboard charts. The song is a tribute to an infamous brand of cheap Californian fortified wine, Night Train Express, which was extremely popular with the band during their early days because of its low price and high alcohol content. In 1962, Sonny Liston became boxing's world heavyweight champion. He was a poor plantation boy and a bruiser for the mob who had done time for armed robbery, but he had fought his way to the top. Those he met in the ring said he was unstoppable, even dangerous. Sonny, however, knew differently.

A sharp twist on the noir genre from one of England's finest fiction writers 'I worked one hundred murders,' says Detective Mike Hoolihan, an American policewoman. 'In my time I have come in on the aftermath of maybe a thousand suspicious deaths, most of which turned out to be suicides, accidentals or plain unattendeds. So I've seen them all: jumpers, stumpers, dumpers, dunkers, bleeders, floaters, poppers, bursters. But of all the bodies I have ever seen none has stayed with me, in my gut, like the body of Jennifer Rockwell. I say all this because I am part of the story I am going to tell, and I feel the need to give you some idea of where I'm coming from.' Night Train is a mystery story which lingers in the reader's mind even after Mike Hoolihan declares the case closed. 'Tough, noir, Chandleresque' Independent 'Night Train is both delicate and bruising - a long drawn-out blue note. The book hangs around in the mind like smoke in a jazz club' Telegraph Magazine

Night trains have long fascinated us with the possibilities of their private sleeping compartments, gilded dining cars, champagne bars and wealthy travellers. Authors from Agatha Christie to Graham Greene have used night trains to tell tales of romance, intrigue and decadence against a rolling background of dramatic landscapes. The reality could often be as thrilling: early British travellers on the Orient Express were advised to carry a revolver (as well as a teapot). In *Night Trains*, Andrew Martin attempts to relive the golden age of the great European sleeper trains by using their modern-day equivalents. This is no simple matter. The night trains have fallen on hard times, and the services are disappearing one by one. But if the Orient Express experience can only be recreated by taking three separate sleepers, the intriguing characters and exotic atmospheres have survived. Whether the backdrop is 3am at a Turkish customs post, the sun rising over the Riviera, or the constant twilight of a Norwegian summer night, Martin rediscovers the pleasures of a continent connected by rail. By tracing the history of the sleeper trains, he reveals much of the recent history of Europe itself. The original sleepers helped break down national barriers and unify the continent. Martin uncovers modern instances of European unity - and otherwise - as he traverses the continent during 'interesting times', with Brexit looming. Against this tumultuous backdrop, he experiences his own smaller dramas, as he fails to find crucial connecting stations, ponders the mystery of the compartment dog, and becomes embroiled in his very own night train whodunit.

Richard "Dick" Lane is best known for being a standout defensive back in professional football who played fourteen seasons in the National Football League and established records that still stand today. During his rookie season, Lane established the record for most interceptions in a season when he picked off fourteen. The record still stands today, despite the NFL season being several games longer and offenses being much more pass oriented. Lane was known for not only taking the ball away from the offense, but also his bone-jarring hits. To best determine his stature in professional football history, one only has to refer to what his peers had to say about him: ". . . Richard 'Night Train' Lane. I played with him and against him. He was the best I've ever seen." Pat Summerall - Sports Commentator & NFL Player "Train was the greatest defensive back that ever played the game. Period." - Red Hickey - Head Coach of the Baltimore Colts from 1959 to 1968.

This seminal book reveals how black labor was exploited in twentieth-century South Africa, the human costs of which are still largely hidden from history. It was the people of southern Mozambique, bent double beneath the historical loads of forced labor and slavery, then sold off en masse as contracted laborers, who paid the highest price for South African gold. An iniquitous intercolonial agreement for the exploitation of ultra-cheap black labor was only made possible through nightly use of the steam locomotive on the transnational railway linking Johannesburg and Lourenço Marques. These night trains left deep scars in the urban and rural cultures of black communities, whether in the form of popular songs or a belief in nocturnal witches' trains that captured and conveyed zombie workers to the region's most unpopular places of employment. By tracing the journeys undertaken by black migrants, Charles van Onselen powerfully reconstructs how racial thinking, expressed logistically, reflected the evolving systems of segregation and apartheid. On the night trains, the last stop was always hell.

Brevity is the soul of beauty in these tiny masterworks of short short fiction Gorgeously translated by Lydia Davis, the miniature stories of A. L. Snijders might concern a lost shoe, a visit with a bat, fears of travel, a dream of a man who has lost a glass eye: uniting them is their concision and their vivacity. Lydia Davis in her introduction delves into her fascination with the pleasures and challenges of translating from a language relatively new to her. She also extols Snijders's "straightforward approach to storytelling, his modesty and his thoughtfulness." Selected from many hundreds in the original Dutch, the stories gathered here—humorous, or bizarre, or comfortingly homely—are something like daybook entries, novels-in-brief, philosophical meditations, or events recreated from life, but—inhabiting the borderland between fiction and reality—might best be described as autobiographical

mini-fables. This morning at 11:30, in the full sun, I go up into the hayloft where I haven't been for years. I climb over boxes and shelving, and open the door. A frightened owl flies straight at me, dead quiet, as quiet as a shadow can fly, I look into his eyes—he's a large owl, it's not strange that I'm frightened too, we frighten each other. I myself thought that owls never move in the daytime. What the owl thinks about me, I don't know.
