Olenka Fortuna is a typical teenager in Poland who likes to spend time with her friends, shop for clothes, and watch movies at the local cinema. When her American expatriate mother dies suddenly and unexpectedly, she leaves behind a slew of questions to which Olenka has no answers. Why did her mother first come to Poland shortly before the Iron Curtain fell? Why did she never return to the United States? Why did she avoid talking about her American family? Olenka seeks answers to these questions, but it doesn't take long for her to realize that everyone is

hiding something about her mother and American relatives. What she doesn't know is that the truth can shatter her world, revealing secrets that can undermine her perception of her family and her own identity.

readers.”—Oprah Daily For the last twenty years, George Saunders has been teaching a class on the Russian short story to his MFA students at Syracuse University. In *A Swim in a Pond in the Rain*, he shares a version of that class with us, offering some of what he and his students have discovered together over the years. Paired with iconic short stories by Chekhov, Turgenev, Tolstoy, and Gogol, the seven essays in this book are intended for anyone interested in how fiction works and why it’s more relevant than ever in these turbulent times. In his introduction, Saunders

writes, "We're going to enter seven fastidiously constructed scale models of the world, made for a specific purpose that our time maybe doesn't fully endorse but that these writers accepted implicitly as the aim of art—namely, to ask the big questions, questions like, How are we supposed to be living down here? What were we put here to accomplish? What should we value? What is truth, anyway, and how might we recognize it?" He approaches the stories technically yet accessibly, and through them explains how narrative functions; why we stay immersed in a story and why

we resist it; and the bedrock virtues a writer must foster. The process of writing, Saunders reminds us, is a technical craft, but also a way of training oneself to see the world with new openness and curiosity. *A Swim in a Pond in the Rain* is a deep exploration not just of how great writing works but of how the mind itself works while reading, and of how the reading and writing of stories make genuine connection possible.

Throughout history, Japanese women have excelled in poetry - from the folk songs of the *Kojiki* (Record of

Access Free Olenka

Ancient Matters) compiled in 712 and the court poetry of the 9th to the 14th centuries, on through the age of haikai and kanshi to the 19th century, into the contemporary period when books of women's poems have created a sensation. This anthology presents examples of the work of more than 100 Japanese women poets, arranged chronologically, and of all the major verse forms: choka, tanka, haikai (haiku), kanshi (verse written in Chinese), and free verse. The poems describe not just seasonal changes and the vagaries of love - which form the thematic core of traditional

Access Free Olenka

Japanese poetry - but also the devastations of war, childbirth, conflicts between child-rearing and work, experiences as refugees, experiences as non-Japanese residents in Japan, and more. Sections of poetry open with headnotes, and the editor has provided explanations of terms and references for those unfamiliar with the Japanese language. Other useful tools include a glossary of poetic terms, a chronology, and a bibliography that points the reader toward other works by and about these poets. There is no comparable collection available in English. Students and anyone

who appreciates poetry and Japanese culture will treasure this magnificent anthology. Editor and translator Hiroaki Sato is a past winner of the PEN America translator prize and the Japan-United States Friendship Commission's 1999 literary translation award.

The Khrushchev era is increasingly seen as a period in its own right, and not just as 'post-Stalinism' or a forerunner of subsequent 'thaws' and 'reform from within'. This book provides a comprehensive history of reform in the period, focusing especially on

social and cultural developments. Since the opening of the former Soviet archives, much new information has become available casting light on how far official policies correlated with popular views. Overall the book appraises how far 'Destalinization' went; and whether developments in the period represented a real desire for reform, or rather an attempt to fortify the Soviet system, but on different lines.

This sourcebook provides the first systematic overview of witchcraft laws and trials in Russia and Ukraine from

medieval times to the late nineteenth century. Witchcraft in Russia and Ukraine weaves scholarly commentary with never-before-published primary source materials translated from Polish, Russian, and Ukrainian. These sources include the earliest references to witchcraft and sorcery, secular and religious laws regarding witchcraft and possession, full trial transcripts, and a wealth of magical spells. The documents present a rich panorama of daily life and reveal the extraordinary power of magical words. Editors Valerie A. Kivelson and Christine D. Worobec

present new analyses of the workings and evolution of legal systems, the interplay and tensions between church and state, and the prosaic concerns of the women and men involved in witchcraft proceedings. The extended documentary commentaries also explore the shifting boundaries and fraught political relations between Russia and Ukraine.

This book explores the value of duoethnography to the study of interdisciplinary practice. Through rich stories, scholars illustrate how dialogic and relational forms of research help to facilitate deeply emic, personal, and situated understandings of practice and promote personal reflexivity and changes in practice. In this book, students, teachers, and practitioners use duoethnography to become more aware, dialogic, imaginative, and relational

Conceive the joy of a lover of nature who, leaving the art galleries, wanders out among the trees and wild flowers and birds that the pictures of the galleries have sentimentalised.
