In this second edition, new questions have been added and existing material has been updated. The book's hybrid format bridges the gap between standard MCQ books and textbooks. It contains 280 exam-based paediatric MCQs written by a team of subject specialists. Each question is accompanied by the correct answer, plus a page-long subject summary focusing on the specific topics likely to occur in the examination, including lists, mnemonics and bullet points. This new format is a response to requests from exam candidates for longer teaching notes to counteract the need to refer to unnecessarily detailed textbooks.

The product of a world center of excellence in teaching and medical and surgical practice, second edition of a bestseller combines the advantages of a colour atlas with those of a short textbook covering clinical features, epidemiology, investigations, and differential diagnosis. Illustrations include clinical photos, imaging, charts, graphs, and histology where appropriate. The author/editor team, supported by specialist contributions from clinicians at Institute of Child Health/Great Ormond Street, offers an unmatched range of expertise in a compact volume. The book is of lasting reference value to pediatricians in training and practice, and to professionals in many other disciplines.

The MRCPCH clinical examination

Assesses whether candidates have reached the standard in clinical skills expected of a newly appointed specialist registrar, while the DCH recognises the competence of GPs and other health professionals in caring for children. Success in communication skills is vital to achieve overall success in these examinations. This revised and expanded Second Edition includes over a dozen new scenarios for both examinations, a new chapter on the general approach to effective communication, an expanded clinical exam mark sheet, anchor statements and exam circuit diagrams. Although written to aid candidates for the clinical MRCPCH and DCH examinations, this book will also be useful to paediatric trainees in their day-to-day clinical encounters.

Medical school is full of unfamiliar and

Free often frightening experiences for students. In the first year, a student must move away from home, balance personal finances, assimilate large volumes of information, learn practical skills, pass high stakes exams, and face a range of unique experiences. The Oxford Handbook for Medical School provides an essential, practical guide for all students, whether you have just received your offer, you're eager to succeed on the wards, or you're about to start your final exams. This handbook includes quick-access summaries covering the crucial information for your preclinical years and for each clinical specialty. With bullet lists of the key information you need to know, and helpful mnemonics throughout, this is a concise yet thoroughly comprehensive guide. Written by a team of consultants and recent students, now successfully graduated and embarking on their careers,

This title is directed towards MRCPCH candidates in the UK and other countries where MRCPCH is offered. It provides a complete revision aid for the new OSCE-style MRCPCH clinical exam. It is designed and written to be as close as possible to the actual exam. Each chapter is a 'circuit' and will include all the written stations. The questions are laid out in exactly the same format as the exam, and the answers are written in a friendly style by authors who have recently been through the process and can offer valuable hints and tips. Sample questions mimic

Exam conditions - there are no clues to the answers, as is usually the case in more traditional system-based books. The fully explanatory answers provide not only clinical information but a framework for answering similar questions - extremely useful on the actual day of the exam. Can be used at the beginning of the revision process - to check progress and highlight weaknesses. Can also be used as a last-minute check right at the end of revision - to be sure all bases have been covered. Ideal for group revision work, especially for the communication and role-play stations.
