Step-by-step instructions for creating papier-mâché monstrosities and expanding the limits of your imagination, from the author of Paper Mache Dragons Celebrated monster-making master Dan Reeder is at it again—helping others to let out their inner monsters! All that's needed are a few simple materials and a wild imagination. Reeder guarantees success if the tried-and-tested, goof-proof how-to steps in this humorous read are followed. But there's more—he's also giving away all of his secrets for creating ghoulish monster elements such as jaws, claws, horns, scales, webbing, tentacles, eyeballs, fingers, toes, gnarly hands and feet, and even perfect drool! Learn how to make a basic monster and you'll be well on your way to creating more hideous creatures, beasts, dragons, and whatever else your dark side can think of! I'm not one to argue that the world doesn't need more monsters, be they made of papier and/or cloth mâché, as demonstrated in Dan's entertaining new book, or flesh and blood, as demonstrated by the one standing behind you right now. —Gary Larson, creator, Far Side —For lovers of the truly grotesque, Reeder provides detailed photo instructions for large figures constructed of clothes hangers, newspaper, and glue. Cloth skin, teeth, and slathered-on paint finish them off. The toothy dragons are particularly effective. —School Library Journal

This invaluable guide will prove to you that the biggest secret to a successful homeschool is motivation. Because when you choose how to homeschool, there is an elephant in the room. And that's you. You are the parent. But now you are the teacher too. That is potentially an enormous problem on the motivation front. Picture this: What happens when you end up in lots of battles with the kids? The kids aren't interested. They don't want to learn. You are tearing your hair out. This is their future ...Can't they realize that? What if they don't get any exams or qualifications? They will have failed. And you will have failed too. This guide shows you exactly what things you can do in your homeschool to get your kids happy and enthusiastic - and what not to do. Dealing with common homeschool problems like this plea: "Desperate for enlightenment. My kid refuses to do any work" , the book contains indispensable homeschooling help for all homeschoolers, old and new alike. And, since giving your child the best start in life is something we all have in common, you will find the advice here applies worldwide whether you call it homeschooling or, as in the UK, home education. Based on unique experience from one of the few second generation homeschool families and suggestions from more than 8,500 Facebook fans, *Secrets of Success* will show you: What makes a good homeschool teacher Practical steps to keep your kids motivated and in love with learning How to make a homeschool schedule which works for all of you How to deal with the potential nightmare of homeschooling high school and the responsibility of motivating kids through exams At all times practical, this upbeat guide is essential reading whatever homeschooling method you follow. Whether you stick to a strict schedule with clear academic targets, decide on relaxed homeschooling, or let your child lead the way and unschool, this guide will teach you the essential steps to success using real-life insights from homeschoolers who have 'been there and done that.' With a homeschool son now going to Oxford University and a daughter following an unschooling route as a talented artist, the author argues that most parents misunderstand what makes young people motivated. This problem becomes particularly acute when it comes to homeschooling high school and the responsibility for getting your children through exams. Getting your unmotivated teen on-side is something all parents struggle with. Learning to trust your child and accept what they say - even though you may not agree with it - is one of the homeschooling lessons which is hardest to put into practice. Uncovering the five common motivational mistakes made by parents, the book concludes by proving that the academic route is not the only path to homeschooling success. Drawing on inspiration from leading educationalists like John Holt, Ken Robinson, Charlotte Mason and Maria Montessori, you will find a wealth of practical help so that you can make homeschooling the best and most fulfilling thing you've ever done. "It is time to think outside the box and teach your child to embrace a life of learning. This book will give you the tools to do that." Lisa Vaught "Great book, very encouraging and supportive." Janet

Over 20 diverse projects are included *Contemporary Papier Mache* is a colorful collection of papier mache projects by artist and teacher Gilat Nadivi. With an emphasis on recycling everyday items to create one-of-a-kind masterpieces, Nadivi instructs readers on how simple materials, basic techniques, and a healthy measure of imagination can be combined to make a range of distinctive creations. Projects described in the book are diverse; they include human figures engaged in everyday activities, animals that are tall, small and in between, home accessories such as picture frames, bowls and magnets, and more. Recycling is an inherent component of almost all papier mache, and *Contemporary Papier Mache* really takes this principle to heart. Old wires and hangers act as bases for human figures, empty rolls of tape become fashionable bangles, discarded water bottles are transformed into women's figures. After trying out a few projects in the book, readers will find their eyes open to the artistic potential waiting to be discovered in basements, garages, and recycling boxes. Tools for these projects are minimal, and supplies are easy to find. As for guidance and inspiration, readers will find plenty of both within the pages of *Contemporary Papier Mache*. The book begins with a chapter on materials that describes the supplies readers will need for the projects. This includes basic materials such as papers, glues, work surfaces and paints, as well as fabrics and other decorative enhancements. It also includes suggestions about items that can be reused (and revived!) through papier mache. The techniques chapter describes various papier mache methods as well as painting and lacquer application.

Papier-Mâché turns everyday newspapers and homemade paste into amazing objects. Crafters practice comprehension skills as they use text and diagrams to follow the steps for each project. The activities push students to learn and apply domain-specific vocabulary, practice new techniques, and build on concepts that may already be familiar. Other tools, including an index and additional resources, encourage readers to locate information and explore further independently.
