Part of a year-long curriculum of units about primary writing

Instruction in this series is organized around four grade-specific units of study at each level and a book of if/then curricular plans. The four units of study at each grade level are organized around opinion, information, and narrative writing. Each unit of study contains 18-22 sequential sessions subdivided into three to four bends, with each bend walking you step-by-step through the entire writing process from planing and drafting to revising and editing and eventually to publication. The grade-specific book *If ... then ...* curriculum : assessment-based instruction supports targeted instruction and differentiation with alternative assessment-based units. Each includes five to eight concise units of study for you to strategically teach before, after (or in-between) the core curriculum based on your students needs.

quirky narrator of this book just has to win that rollercoaster ride with her favorite author! But what makes a story the best? Her brother Tim says the best stories have lots of action. Her father thinks the best stories are the funniest. And Aunt Jane tells her that the best stories have to make people cry. A story that does all these things doesn't seem quite right, though, and the one thing the whole family can agree on is that the best story has to be your own. Anne Wilsdorf's hilarious illustrations perfectly capture this colorful family and their outrageous stories in Eileen Spinelli's heartfelt tale about creativity and finding your own voice.

"In second grade, children move from a "little-kid" focus on print to a "big-kid" focus on meaning. The first unit, Second-Grade Reading Growth Spurt, teaches children to take charge of their reading, drawing on everything they know to figure out hard words, understand author's craft, and build big ideas about the books they read. Children learn that books can be their teachers in the second unit, Becoming Experts: Reading Nonfiction, in which they learn more about familiar topics and grow understanding of new topics while working on word solving, vocabulary development, and comparing and contrasting information across texts. In the third unit, Bigger Books Mean Amping Up Reading Power, children learn strategies to build three foundational reading skills--fluency, understanding figurative language, and comprehension. In the final unit for second grade, Series Book Clubs, children work within book clubs to study author's craft to understand ways authors use word choice, figurative language, punctuation, and even patterns to construct a series and evoke feelings in readers"--Pearson.com.

need Writing Pathways? The content in this stand-alone edition is the same as in the previous editions found in Lucy Calkins' Units of Study (K-5 and 6-8 are combined in this new edition). Teachers who have the Units of Study do not need this new edition.

Lucy Calkins discusses how to teach writing and how children develop as writers; she stresses the importance of staff development for teachers of writing.

"Writing allows each of us to live with that special wide-awakeness that comes from knowing that our lives and our ideas are worth writing about." -Lucy Calkins Teaching Writing is Lucy Calkins at her best-a distillation of the work that's placed Lucy and her colleagues at the forefront of the teaching of writing for over thirty years. This book promises to inspire teachers to teach with renewed passion and power and to invigorate the entire school day. This is a book for readers who want an introduction to the writing workshop, and for those who've lived and breathed this work for decades. Although Lucy addresses the familiar topics-the writing process, conferring, kinds of writing, and writing assessment- she helps us see those topics with new eyes. She clears away the debris to show us the teeny details, and she shows us the majesty and meaning, too, in these simple yet powerful teaching acts. Download a sample chapter for more information.
