Smapi3D Piping
automates the
creation and
modification of
piping routes
within
SOLIDWORKS.
Based on 3D

Online Library Smap3d Plant

Design sketches, pipes are generated with just a few mouse clicks. The pre-defined pipe specifications contain all necessary information, such as the pipe standard, fittings, material, insulation or pressure ratings. Drawings can then be derived from

Online Library Smamp3d Plant

the created
assemblies with
the common
SOLIDWORKS
functionality using
views, dimensions,
parts lists, etc. This
book concentrates
on the program
introduction and
shows the reader
the basic operation
of Smamp3D Piping.
This includes the

Online Library Smap3d Plant

Creation and modification of pipe routes and parts libraries. As a supplement and pre-stage to the official Smap3D training, this book is suitable to get a first impression of the software and its functionality. The readers should thus be able to
