to-date research and business practices are the hallmarks of this market-leading text. In-depth applications (cases and exercises) at the ends of chapters provide students with skills-building and practice in key staffing activities and decision making. A comprehensive running case involving a fictitious retailing organisation provides even greater opportunity for in-depth analysis and skills-building. Students also have the opportunity to address ethical issues at the end of each chapter.

Heneman and Judge's Staffing Organizations, 6/e, is based on a comprehensive staffing model. Components of the model include staffing models and strategy, staffing support systems (legal compliance, planning, job analysis and rewards), core staffing systems (recruitment, selection, employment), and staffing system and retention management. Up-to-date research and business practices are the hallmarks of this market leading text. In-depth applications (cases and exercises) at the end of chapters provide students with skill-building and practice in key staffing activities and decision-making. A comprehensive running case involving a fictitious retailing organization provides even greater opportunity for in-depth analysis and skill building. Students also have the opportunity to address ethical issues at the end of each chapter.

Leading and Managing in Nursing, 5th Edition -- Revised Reprint by Patricia Yoder-Wise successfully blends evidence-based guidelines with practical application. This revised reprint has been updated to prepare you for the nursing leadership issues of today and tomorrow, providing just the right amount of information to equip you with the tools you need to succeed on the NCLEX and in practice. Content is organized around the issues that are central to the success of professional nurses in today's constantly changing healthcare environment, including patient safety, workplace violence, consumer relationships, cultural diversity, resource management, and many more. "... apt for all nursing students and nurses who are working towards being in charge and management roles." Reviewed by Jane Brown on behalf of Nursing Times, October 2015 Merges theory, research, and practical application for an innovative approach to nursing leadership and management. Practical, evidence-based approach to today's key issues includes patient safety, workplace violence, team collaboration, delegation, managing quality and risk, staff education, supervision, and managing costs and budgets. Easy-to-find boxes, a full-color design, and new photos highlight key information for quick reference and effective study. Research and Literature Perspective boxes summarize timely articles of interest, helping you apply current research to evidence-based practice. Critical thinking questions in every chapter challenge you to think critically about chapter concepts and apply them to real-life situations. Chapter Checklists provide a quick review and study guide to the key ideas in each chapter, theory boxes with pertinent theoretical concepts, a glossary of key terms and definitions, and bulleted lists for applying key content to practice. NEW! Three new chapters - Safe Care: The Core of Leading and Managing, Leading Change, and Thriving for the Future - emphasize QSEN competencies and patient safety, and provide new information on strategies for leading change and what the future holds for leaders and managers in the nursing profession. UPDATED! Fresh content and updated references are incorporated into many chapters, including Leading, Managing and Following; Selecting, Developing and Evaluating Staff; Strategic Planning, Goal Setting, and Marketing; Building Teams Through Communication and Partnerships; and Conflict: The Cutting Edge of Change. Need to Know Now bulleted lists of critical points help you focus on essential research-based information in your transition to the workforce. Current research examples in The Evidence boxes at the end of each chapter illustrate how to apply research to practice. Revised Challenge and Solutions case scenarios present real-life leadership and management issues you'll likely face in today's health care environment.

Heneman's and Judge's Staffing Organizations, 9e, is based on a comprehensive staffing model. Components of the model include staffing models and strategy, staffing support systems (legal compliance, planning, job analysis and rewards), core staffing systems (recruitment, selection, and employment), and staffing systems and retention management. Up-to-date research and business practices are the hallmarks of this market-leading text. In-depth applications (cases and exercises) at the end of the chapters provide students with skill-building and practice in key staffing activities and decision making. A comprehensive running case involving a fictitious retailing organization provides even greater opportunity for in-depth analysis and skill-building. Students also have the opportunity to address ethical issues at the end of each chapter.

Uniquely organized around the AONE competencies, this trusted resource gives you an easy-to-understand, in-depth look at today's most prevalent nursing leadership and management topics. Coverage features the most up-to-date, research-based blend of practice and theory related to topics such as: the nursing professional's role in law and ethics, staffing and scheduling, delegation, cultural considerations, care management, human resources, outcomes management, safe work environments, preventing employee injury, and time and stress management. UNIQUE! Chapters divided according to AONE competencies for nurse leaders, managers, and executives. Research Notes in each chapter summarize relevant nursing leadership and management studies and highlight practical applications of research findings. Case Studies at the end of each chapter present real-world leadership and management situations and illustrate how key concepts can be applied to actual practice. Critical Thinking Questions at the end of each chapter present clinical situations followed by critical thinking questions to help you reflect on chapter content, critically analyze the information, and apply it to the situation. NEW! Full-color design makes content more vivid and realistic. NEW! Chapter on Communication and Care Coordination covers these integral topics. NEW! Updates to critical thinking exercises, case studies, research notes, and references offer the most current information. NEW! Updated sections on Current Issues and Trends reflect the latest topics in the field. NEW! Relevant Web Sites boxes provide authoritative resources for additional research.

Raymond Noe's Employee Training and Development sets the standard in this course area. First introduced in 1998, ETD became the market-defining text within 6 months of publication. Its popularity is due to its lively writing style and relevant examples of the most up-to-date developments in training, research and practice, including the strategic role of training and the use of new technologies in training. Employee Training and Development strikes a balance between research and real company practices. It provides students with a solid background in the fundamentals of training and development such as needs assessment, transfer of training, learning environment design, methods, and evaluation. To help students better understand the relationship between the main elements of the book, the book is now organized into five different parts. Part I focuses on the context for training and development and includes a chapter devoted to strategic training. Part II includes coverage related to the fundamentals of designing training programs. Chapters in Part II focus on needs assessment, learning theories and program design, transfer of training, and training evaluation. Part III focuses on training and development methods and includes chapters devoted to traditional training methods, e-learning and the use of technology in training, employee development, and special issues in employee development, such as managing diversity, succession planning, and cross-cultural preparation. Chapters in Part IV cover career issues and how companies manage careers, as well as challenges in career management, such as dealing with work-life conflict, retirement,

and socialization. Finally, Part V provides a look at the future of training and development.

Lussier's: Human Relations in Organizations: Applications and Skill Building, 6e takes an application/skill building approach to human relations. This approach suits professors, who want to incorporate more activities and exercises into the classroom, and students who want to be able to do more than just understand concepts, but actually apply and develop skills that they can use in their daily and professional life. The book continues to have integration balanced by a three-pronged approach: -clear concise understanding of human relations/organizational behavior concepts; -the application of HR/OB concepts for critical thinking in the business world; and -the development of HR/OB skills. This approach allows the student to learn the concept, apply it through various applications and situational activities, and ultimately apply it to his/her own life.

This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. Where the strategy of staffing and business align. Strategic Staffing prepares all current and future managers to take a strategic and modern approach to the identification, attraction, selection, deployment, and retention of talent. Grounded in research but full of real-world examples, this text describes how organizations can develop a staffing strategy that reinforces business strategy, leverages staffing technology, and evaluates and improves staffing systems. This edition includes new and relevant topics on staffing that readers will be able to immediately apply in their future careers—including a discussion on how Twitter and Facebook can be used for sourcing and managing staffing systems.

A trusted professional reference and a teaching text, the new edition of Managing Health Services Organizations and Systems continues to provide the most comprehensive coverage available of the leadership, financial understanding, and conceptual frameworks required to effectively manage the delivery of health services in the U.S. Emphasizing continuous quality and performance improvement throughout the organization, the authors explore essential knowledge and skills required for success in areas that include managerial problem solving, resource allocation and utilization, effective communication, organizational culture, human resources, facilitation of change, and ethical and legal responsibilities. This fully updated, reorganized, and revised 7th edition contains new content on information technology, artificial intelligence, and financial/quantitative analysis currently in widespread demand. Ninety case studies with discussion questions sharpen readers' problem-solving skills while inviting them further into the real world of hospital administration. Instructor materials are available with this text and include: PowerPoint presentations Test banks and answer keys Learning objectives Instructor manual Figures and tables PLUS a PDF of all acronyms used in the text

Contains the knowledge essential to prepare for licensure and employment as a nursing home administrator. Using as its basis the guidelines of the National Association of Boards of Examiners of Nursing Home Administrators, this work includes sections on: Distinguishing delirium from dementia; Psychosis from agitation; GERD; and Glycemic control.
