A monumental achievement and encyclopaedic in scope, it was a comprehensive catalogue of fashion terms from the mid-medieval period up to 1900.

This book describes the philosophy and the use of Aleister Crowley's Thoth Tarot, a deck of Tarot cards designed by Crowley and co-designed and painted by Lady Frieda Harris. The Thoth Tarot has become one of the best-selling and most popular Tarot Decks in the world. It is also one of the most original interpretations of the tarot, incorporating astrological,

numerological, Egyptian, and Qabalistic symbolism. While there are many other useful guides to this famous tarot deck, there are no others that explain the deck in its designer's own words. The book is divided into four major parts: \* Part One: The Theory Of The Tarot. \* Part Two: The Atu (Keys or Trumps). \* Part Three: The Court Cards. \* Part Four: The Small Cards. Part One is further divided into three chapters; Part Two into two chapters and an appendix; Part Three into one chapter; and Part Four into one chapter. The book includes a list of plates depicting the Tarot cards as seen by Crowley and Harris.

HERE LIES MEMORY explores the

place of memory in living, daily, scarred and sacred lives. Two Pittsburgh families struggle to survive trauma and love. A man wills himself to go blind, not to forget, but to remember in new ways. Another man drinks beer after beer until he can no longer drink away what he must face directly. This novel explores what language and photographs do to memory, desire, and love, and what gentrification is doing to the souls of families and neighborhoods.

Dick Higgins and his Something Else Press epitomized the riotous art of the '60s. There are few art-world figures as influential--and as little known--as Dick Higgins (1938-98), cofounder of Fluxus, "polyartist," poet, scholar, theorist, composer, performer and, not least, the publisher of the legendary Something Else Press. In 1965 he restored the term "intermedia" to the English language, giving it new dimension to recognize the dissolution of boundaries between traditional modes of art-making and the open field for new forms that cannot be compartmentalized. His own contributions to intermedia are many--as a participant and instigator of happenings, as writer and

composer straddling traditional and vanguard forms, among others--but it was Something Else Press (1963-74) that redefined how "the book" could inhabit that energized, in-between space. Something Else Press was as much a critical statement and radical experiment as it was a collection of books by some of the most luminary artists and writers of the 20th century: Gertrude Stein, John Cage, Ray Johnson, Dieter Roth, Bern Porter, Ian Hamilton Finlay, Emmett Williams, Robert Filliou, and George Brecht, among many others. Along with his Great Bear Pamphlet series and the Something Else newsletter, Higgins exploited and subverted conventional book production and

marketing strategies to get unconventional and avant-garde works into the hands of new and often unsuspecting readers. Edited by Granary Books publisher Steve Clay and Fluxus artist Ken Friedman, this judiciously curated and indispensable compendium of essays, theoretical writings and narrative prose dives deep into the ever-influential ideas that Higgins explored in theory and practice. Clay and Friedman have chosen works that illuminate Higgins' voracious intellectual appetite, encyclopedic body of knowledge and playful yet rigorous experimentation in a selection that includes many writings long out of print or difficult to find.
