Four million quid. There it was, inches away from me on a hotel table. Not in conventional currency, but in the world ' s deadliest commodity, Heroin. ' As part of Scotland Yard ' s undercover team, it was Peter Bleksley ' s job to infiltrate some of the capital ' s most dangerous gangs and bring them down. For ten years, he went deeper into the criminal underworld than any cop had before him. Meeting with dealers, gangland leaders and members of the IRA and the Mafia, he lived the life of the Great Pretender, constantly changing his identity to ensure his cover was never blown. Whilst undeniably thrilling work at times, it came at a heavy price. The more successful

he was at bringing criminals to justice, the longer the list of those who wanted revenge became. Even now, Peter looks over his shoulder in case someone should wish to act on an old threat. In *The Gangbuster*, Bleksley draws us into the world of drugs, violence and covert operations he inhabited for so long in the pursuit of justice. Now a renowned policing and crime expert seen on the BBC and as the Chief on Channel 4 ' s *Hunted*, Peter Bleksley reputation still precedes him the world over.

An elite homicide investigation unit takes on one of the most savage and destructive gangs in New York City history in this gritty true-crime narrative. The investigation into the late-night murder of a college student on the West Side Highway leads to the *Wild Cowboys*, a group of young men who for years terrorized Upper Manhattan and the Bronx while running a \$30,000-a-day drug business. What follows is a tale of dogged pursuit that offers a fascinating inside look at the workings of a complex police investigation, and a satisfying account of how a city took back its streets.

Readers learn how a colorful coterie of FBI agents, prosecutors, and police detectives overcame the early years of bureaucratic inertia, high-level political corruption, and interagency rivalry to destroy the last great Mafia dynasty--New York's Lucchese Family.

Four million quid. There it was, inches away from me on a hotel table. Not in conventional currency, but in the world's deadliest commodity, Heroin. The guy sitting opposite me was there to sell it. I was there to buy it. This was the trap we'd set for the biggest fish in international drug trafficking. And we were about to fry him alive...Peter Bleksley was the best undercover cop Scotland Yard ever had. In over ten years operating in covert squads, he came up against some of the most hardened, lethal and bizarre underworld operations, constantly putting his life on the line so that the deadliest villains would end up where they belonged: behind bars. A master of disguise, he assumed numerous identities in order to get close to his targets - drug dealer, counterfeiter, gangster and hit man to name just a few. So determined was he to nail his man, he would even have to take cannabis or cocaine to remain above the suspicion of gang bosses.

On 28 November 2004, banker and father-of-two Alistair Wilson was shot three times on his doorstep in a killing more commonly associated with inner city gang wars than a sleepy seaside town in the Scottish Highlands. All these years later, the question remains: why? Who would wish to kill this respectable husband and family man in such a brutal fashion? Was it simply a tragic case of mistaken identity, or did someone have reason to end Alistair's life? And what was the significance of the envelope handed to him before he was fatally wounded? Over the years, lines of enquiry have been investigated and dismissed, gossip has spread, theories offered and rumours debated at length. And yet, so long after Alistair's death, no arrest has ever been made and precious few motives have been made public. In this gripping true crime investigation, Peter Bleksley, top ex-undercover cop and The Chief on Channel 4's *Hunted*, strives to uncover the truth and hunt down Alistair's killer. He travels to Scotland, speaks to experts, and draws on his decades of investigative experience in order to provide new insight into Scotland's most mysterious murder case.

This book is the factual story of the development of armed helicopters in the US Army and their first employment in combat. The story is dramatically told by the courageous men who lived it--flying daily into enemy infested areas facing murderous fire from automatic and anti-aircraft weapons. In late 1961 the US Government deployed five Transportation Helicopter Companies (H-21 lift thip) to South Vietnam to increase the mobility of South Vietnamese ground forces. The Viet Cong quickly recognized that the H-21s were unarmed and began shooting at them endangering the lives of American crewmen. A helicopter company equipped with 25 UH-1 helicopters had been cobbled together on Okinawa by the Commander US Army Pacific. Believing the company was soon to be deployed to Vietnam, the men assigned to the unit armed its helicopters by scrounging weapons systems left over from WW II and Korea stored in Army/Air Force depots in Okinawa. Machine guns and 2.75 inch rockets were jury rigged onto the UH-1s. Officially designated the Utility Tactical Helicopter Company, but widely known as the " UTT ", the company deployed to Saigon in September 1962. After some jurisdictional squabbles with the Air Force over roles and missions, UTTT began combat operations in October. It quickly became widely known for professionalism and the courage of its crew members. Such was its fame that for years South Vietnamese military personnel called all armed helicopters " UTT. ". Unfortunately over its years in RVN the Company endured frequent designation changes--UTT/68th/197th/334th Armed Helicopter Company. Why remains a mystery even today. The Company ' s legacy is strong and endures today. Armed helicopters are a major component of US Army combat forces. The current Army Apache program (over 600) is a direct descendent. Additionally, the Marines and Navy have strong armed helicopter programs, as does every major military power in the world. Ironically it all began with a small group of courageous men mounting scavenged weapons [mostly outmoded] on helicopters originally designed for medical evacuation. This is their story.

Cape Cod Summers and more as envisioned through the perceptive eyes and humorous "wild imagination" of a young boy who grew up and out of his New England childhood short pants as Paul Fithian, and into his Californian long patns as Paul Vaughn.

The poignant pictures Vaughn paints with words jog the memory of many who remember their own youth "on the Cape" during the mid-20th century. Other vignettes are unique to this last of three boys whose family traces back to, at least, the dingy beside the Mayflower. A boy whose New England heritage was ingrained in his heart and soul enough that he often imagined his Puritan ancestors in their black, buckled hats looking over his shoulder whenever he was doing something not quite right...which was often. It makes no difference where on the Cape these scenes take place, but only that the Cape melds mentally and physically with this youngster as he struggles to find his own self in his own world. These Cape images create scenes of a yesteryear bringing smiles, chuckles and outright laughter to those who have also left their hearts on Cape Cod, and to those doing so at this very moment.
