A large asparagus appears suddenly in the king’s back yard, and he enlists the help of several people and animals, including a songbird, in order to get rid of it.

This book situates the picturebook genre within the widespread international phenomenon of crossover literature, examining an international corpus of picturebooks — including artists ’ books, wordless picturebooks, and celebrity picturebooks — that appeal to readers of all ages. Focusing on contemporary picturebooks, Sandra Beckett shows that the picturebook has traditionally been seen as a children ’ s genre, but in the eyes of many authors, illustrators, and publishers, it is a narrative form that can address any and all age groups. Innovative graphics and formats as well as the creative, often complex dialogue between text and image provide multiple levels of meaning and invite readers of all ages to consider texts that are primarily marketed as children ’ s books. The interplay of text and image that distinguishes the picturebook from other forms of fiction and makes it a unique art form also makes it the ultimate crossover genre. Crossover picturebooks are often very complex texts that are challenging for adults as well as children. Many are characterized by difficult “adult” themes, genre blending, metafictional discourse, intertextuality, sophisticated graphics, and complex text-image interplay. Exciting experiments with new formats and techniques, as well as novel interactions with new media and technologies have made the picturebook one of the most vibrant and innovative contemporary literary genres, one that seems to know no boundaries. Crossover Picturebooks is a valuable addition to the study of a genre that is gaining increasing recognition and appreciation, and contributes significantly to the field of children ’ s literature as a whole.

A New York Review Children ’ s Collection Original An ALPHABET book? An ALBUM of old photos? We named it ALPHABETABUM. Here celebrated artists and authors Vladimir Radunsky and Chris Raschka put a delightful new old-fashioned spin on the alphabet book. Radunsky has selected portraits of children from his spectacular collection of antique black-and-white photographs. Raschka has given the children names and written deliciously teasing rhymes about them. The result is ALPHABETABUM, a book of letters and pictures to which readers will happily return again and again both to look and to learn.
