The internet serves as a means of communication, connecting people around the world, nurturing new friendships and an exchange of ideas that wouldn't have happened before its inception.

This is the classic tale of "Frankenstein," first published in 1818 by Mary Shelley. It tells the story of Victor Frankenstein, a young scientist who creates a grotesque creature. The book is written in the form of letters and narratives by multiple narrators.

How to Write a BA Thesis is the only book that directly addresses the needs of undergraduate students writing a major paper. This book offers step-by-step advice on how to move from early ideas to finished paper. It covers choosing a topic, selecting an advisor, writing a proposal, conducting research, developing an argument, writing and editing the thesis, and making through a defense. Lipson also acknowledges the challenges that arise when tackling such a project, and he offers advice for breaking through writer's block and juggling school-life demands. This is a must-read for anyone writing a BA thesis, or for anyone who advises these students.

Describes the student demonstrations that led to the replacement of the Gallaudet University president with a deaf one

Many scientists and engineers consider themselves poor writers or find the writing process difficult. The good news is that you do not have to be a talented writer to produce a good scientific paper, but you do have to be a careful writer. In particular, writing for a peer-reviewed scientific or engineering journal requires learning and executing a specific formula for presenting scientific work. This book is all about teaching the style and conventions of writing for a peer-reviewed scientific journal. From structure to style, titles to tables, abstracts to author lists, this book gives practical advice about the process of writing a paper and getting it published.

This Second Edition of Diana Ridley's bestselling guide to the literature review outlines practical strategies for reading and note taking, and guides the reader on how to conduct a systematic search of the available literature, and uses cases and examples throughout to demonstrate best practice in writing and presenting the review.
