The Smashwords Style Guide has helped indie authors produce and publish over 65,000 high-quality ebooks. Over 100,000 copies downloaded in three years!

The second edition of this best-selling Python book (over 500,000 copies sold!) uses Python 3 to teach even the technically uninclined how to write programs that do in minutes what would take hours to do by hand. There is no prior programming experience required and the book is loved by liberal arts majors and geeks alike. If you've ever spent hours renaming files or updating hundreds of spreadsheet cells, you know how tedious tasks like these can be. But what if you could have your computer do them for you? In this fully revised second edition of the best-selling classic Automate the Boring Stuff with Python, you'll learn how to use Python to write programs that do in minutes what would take you hours to do by hand--no prior programming experience required. You'll learn the basics of Python and explore Python's rich library of modules for performing specific tasks, like scraping data off websites, reading PDF and Word documents, and automating clicking and typing tasks. The second edition of this international fan favorite includes a brand-new chapter on input validation, as well as tutorials on automating Gmail and Google Sheets, plus tips on automatically updating CSV files. You'll learn how to create programs that effortlessly perform useful feats of automation to:

- Search for text in a file or across multiple files
- Create, update, move, and rename files and folders
- Search the Web and download online content
- Update and format data in Excel

Where To Download Turning Word Documents Into

spreadsheets of any size • Split, merge, watermark, and encrypt PDFs • Send email responses and text notifications • Fill out online forms Step-by-step instructions walk you through each program, and updated practice projects at the end of each chapter challenge you to improve those programs and use your newfound skills to automate similar tasks. Don't spend your time doing work a well-trained monkey could do. Even if you've never written a line of code, you can make your computer do the grunt work. Learn how in *Automate the Boring Stuff with Python, 2nd Edition*.

Writers talk about their work in many ways: as an art, as a calling, as a lifestyle. Too often missing from these conversations is the fact that writing is also a business. The reality is, those who want to make a full- or part-time job out of writing are going to have a more positive and productive career if they understand the basic business principles underlying the industry. *The Business of Being a Writer* offers the business education writers need but so rarely receive. It is meant for early-career writers looking to develop a realistic set of expectations about making money from their work or for working writers who want a better understanding of the industry. Writers will gain a comprehensive picture of how the publishing world works—from queries and agents to blogging and advertising—and will learn how they can best position themselves for success over the long term. Jane Friedman has more than twenty years of experience in the publishing industry, with an emphasis on digital media strategy for authors and publishers. She is encouraging without sugarcoating, blending years of research with practical advice that will help writers market
