This book centres on the problem of psychosis, understood from a psychoanalytic perspective, as it manifests itself in different contexts and different levels of organisation: from the individual psychoanalytic session, through work with couples, groups and institutions and wider levels of social organisation. Beginning with a discussion of the psychoanalytic approach to psychosis centring on the work of Freud, Klein and the Post-Kleinians, it goes on to cover individual, couple and group therapy with psychotic patients. It draws on clinical material and theoretical discussion to explore the links between psychotic processes on different levels. This work is aimed at different professionals working within the psychodynamic frame of

The most used Greek word for love in the NT is agape, the noblest word for self-sacrificial love. The second-most used word for love in the NT is philia, brotherly or sisterly affectionate love between equals. The third word for

Love in Greek is *storge*, which refers to love that is based in one's nature, such as the natural affection of parents toward children. The fourth Greek word for love is *eros*, which does not appear in the NT. It is the love of sexual passion, intimate love, and romantic love. Each entry in all six chapters of this book follows a five-part exercise: (1) title; (2) a short quotation from Scripture; (3) a two-paragraph reflection on the use of love in the quotation; (4) a journal/meditation question to help the reader connect the reflection to his or her own life; and (5) a short prayer. The process is an exercise in spirituality--that is, the way one is in the divine's presence.

The Always-Present One came with a flaming fire at His right hand. Yes, [He] truly loves [His] people. He takes care of all those who belong to Him (Deuteronomy 33:2-3 PEB). Intimacy and Alienation puts forward the author's unique paradigm for psychotherapy and counselling based on the assumption that each patient has suffered a disruption of the 'self', and that the goal of the therapist is to identify and work with that disruption. Using many clinical illustrations, and drawing on self psychology, attachment therapy and theories of trauma, Russell Meares looks at the nature of self and how it develops, before going on to explore the form and feeling of experience when self is disrupted in a traumatic way, and focusing on ways towards the restoration of the self.
