Discover the highlights of Europe, from the vibrant capitals of London, Paris and Rome to the great outdoors, whether skiing in the Alps, hiking in the Tatras or surfing on the Portuguese coast. Read about Europe's great attractions from the Sistine Chapel in Rome to the Aya Sofia in Istanbul. And with coverage of four new countries - Montenegro, Albania, Macedonia and Bosnia-Herzegovina, The Rough Guide to Europe on a Budget is more comprehensive than ever before. Find practical advice on travelling around Europe, whether by InterRail, Eurail or bus, and what to see and do in each country. With up-to-date descriptions of the best hostels and budget hotels in Europe, bars in Europe, cafés, cheap restaurants, and European shopping and festivals this guide is the budget-conscious traveller's must have item for European trips.

Self-Organising Maps: Applications in GI Science brings together the latest geographical research where extensive use has been made of the SOM algorithm, and provides readers with a snapshot of these tools that can then be adapted and used in new research projects. The book begins with an overview of the SOM technique and the most commonly used (and freely available) software; it is then sectioned to look at the different uses of the technique, namely clustering, data mining and cartography, from a range of application-areas in the biophysical and socio-economic environments. Only book that takes SOM algorithm to the GIS and Geography research communities The Editors draw together expert contributors from the UK, Europe, USA, New Zealand, and South Africa Covers a range of techniques in clustering, data mining cartography, all featuring an appropriate case study
