vivid examples
to show how

society

overprescribed
competition as a

when unbridled
rivalry hurts

Competition, kills

, and increases
economic

inequality, two
free-market

diagnose the

by competition
overdose and
provide remedies
that will

sustainable
growth and
progress for
everyone, not

just wealthy
shareholders and
those at the
top. Whatever

illness our
society suffers,
competition is
the remedy. Do
we want better
schools for our

File Type PDF

children?

Cheaper prices
for everything?
More choices in
the marketplace?

The answer is
always: Increase
competition.

Yet, many of us
are unhappy with
the results. We
think we're
paying less, but
we're getting

Virtual

much less. Our
food has
undeclared
additives (or
worse), our
drinking water
contains toxic
chemicals, our
hotel bills
reveal surprise
additions, our
kids' schools
are failing, our
activities are

tracked so that
advertisers can
target us with
relentless
promotions. All
will be cured,
we are told, by
increasing the
competitive
pressure and
defanging the
bloated
regulatory
state. In a

File Type PDF

Virtual

Captivating

exposé, Maurice
E. Stucke and
Ariel Ezrachi

show how we are
falling prey to
greed,
chicanery, and
cronyism.

Refuting the
almost religious
belief in
rivalry as the
vehicle for
