Unflinching, action-packed and laced with wry humour, Johnny Mercer's We Were Warriors is a compelling read. 'An adrenalin-fuelled, gritty story of heroism on the frontline in Afghanistan' Andy McNab The rounds were single shot from the same two enemy positions, trying to pick me off. They were kicking up the dirt around me. Then all hell broke loose as the gunship's Gatling vomited ammo right over my head. The sound was deafening. It was now or never. I got up and ran. A captain in 29 Commando, Johnny Mercer served in the army for twelve years. On his third tour of Afghanistan he was a Joint Fires Controller, with the pressurized job of bringing down artillery and air strikes in close proximity to his own troops. Against all the odds, he was elected as MP of Plymouth Moor View on 7 May 2015 and on 1 June he used his maiden speech to lay bare the sacrifice and commitment of his generation of warriors. New York Times Bestseller: A " powerful and epic story . . . the best account of infantry combat I have ever read " (Col. David Hackworth, author of About Face). In November 1965, some 450 men of the First Battalion, Seventh Cavalry, under the command of Lt. Col. Harold Moore, were dropped into a small clearing in the Ia Drang Valley. They were immediately surrounded by 2,000 North Vietnamese soldiers. Three days later, only two and a half miles away, a sister battalion was brutally slaughtered. Together, these actions at the landing zones X-Ray and Albany constituted one of the most savage and significant battles of the Vietnam War. They were the first major engagements between the US Army and the People 's Army of Vietnam. How these Americans persevered—sacrificing themselves for their comrades and never giving up—creates a vivid portrait of war at its most devastating and inspiring. Lt. Gen. Moore and Joseph L. Galloway—the only journalist on the ground throughout the fighting—interviewed hundreds of men who fought in the battle, including the North Vietnamese commanders. Their poignant account rises above the ordeal it chronicles to depict men facing the ultimate challenge, dealing with it in ways they would have once found unimaginable. It reveals to us, as rarely before, man 's most heroic and horrendous endeavor.

The essential handbook for anyone who has ever returned from a war zone, and their spouse, partner, or family members. Being back home can be as difficult, if not more so, than the time spent serving in a combat zone. It's with this truth that Colonel Charles W. Hoge, MD, a leading advocate for eliminating the stigma of mental health care, presents Once a Warrior—Always a Warrior, a groundbreaking resource with essential new insights for anyone who has ever returned home from a war zone. In clear practical language, Dr. Hoge explores the latest knowledge in combat stress, PTSD (post-traumatic stress disorder), mTBI (mild traumatic brain injury), other physiological reactions to war, and their treatment options. Recognizing that warriors and family members both change during deployment, he helps them better understand each other's experience, especially living with enduring survival skills from the combat environment that are often viewed as " symptoms " back home. The heart of this book focuses on what's necessary to successfully navigate the transition— " LANDNAV " for the home front. Once a Warrior—Always a Warrior shows how a warrior's knowledge and skills are vital for living at peace in an insane world.

The American Civil War ended 152 years ago. Of the military men who served in this drama of untold suffering, little has been written about the experiences of the American Indian (indigenous) participants. Indigenous soldiers and sailors from various states served bravely for both the Union and the Confederacy. One such unit for the north was Company K of the First Michigan Sharpshooters called the all-Indian Company. Company K was unique because it was the only company in the entire sharpshooter regiment, and in all other military units in Michigan, that had only indigenous enlisted men on its roster. In Warriors in Mr. Lincolns Army, author Quita V. Shier offers a comprehensive profile study of each officer and enlisted American Indian soldier in Company K, First Michigan Sharpshooters, who served in the Civil War from 1863 to 1865. The profiles of this all-Indian Company include information taken from military service records, medical files, biographical and family data extracted from pension files, and personal interviews with some of the soldiers descendants. The profiles feature the infantrymen known as grunts, who bore the burden of fighting, and dying in this conflict, and the officers who led them into battle. Shier shares insight into who these fighting men were, who loved them, and what happened to them.

"Words for Warriors: A Professional Soldier's Notebook" is about leadership-leadership on the battlefield and in the garrison. Colonel Ralph Puckett, a Ranger legend, shares what he has learned in more than fifty-eight years of training, leading, teaching, and mentoring Warriors. This book addresses tactics, training, administration, special staff, public relations, self-development, and myriad other subjects that are the responsibilities of commanders. Much of this advice will be useful to business leaders as well. The essays within are not limited to Colonel Puckett's experience. They draw heavily upon the experiences of others to provide a broad discussion of practical courses of action for the many challenges that confront leaders. This invaluable resource presents ideas that will help commanders with many of the problems that are part of everyday military life. "Words for Warriors" helps fill the gap between what is taught in our service schools and lessons learned through experience.

A diverse group of contributors offer different perspectives on whether or not the different experiences of our military and the broader society amounts to a "gap"—and if the American public is losing connection to its military. They analyze extensive polling information to identify those gaps between civilian and military attitudes on issues central to the military profession and the professionalism of our military, determine which if any of these gaps are problematic for sustaining the traditionally strong bonds between the American military and its broader public, analyze whether any problematic gaps are amenable to remediation by policy means, and assess potential solutions. The contributors also explore public disengagement and the effect of high levels of public support for the military combined with very low levels of trust in elected political leaders—both recurring themes in their research. And they reflect on whether American society is becoming so divorced from the requirements for success on the battlefield that not only will we fail to comprehend our military, but we also will be unwilling to endure a military so constituted to protect us.
