Doing well with money isn't necessarily about what you know. It's about how you behave. And behavior is hard to teach, even to really smart people.

Money—investing, personal finance, and business decisions—is typically taught as a math-based field, where data and formulas tell us exactly what to do. But in the real world people don't make financial decisions on a spreadsheet. They make them at the dinner table, or in a meeting room, where personal history, your own unique view of the world, ego, pride, marketing, and odd incentives are scrambled together. In *The Psychology of Money*, award-winning author Morgan Housel shares 19 short stories exploring the strange ways people think about money and teaches

Today how to make better sense of one of life's most important topics.

Although we have been successful in our careers, they have not turned out quite as we expected. We both have changed positions several times—for all the right reasons—but there are no pension plans vesting on our behalf. Our retirement funds are growing only through our individual contributions. Michael and I have a wonderful marriage with three great children. As I write this, two are in college and one is just beginning high school. We have spent a fortune making sure our children have received the best education available. One day in 1996, one of my children came home disillusioned with school. He was bored and tired of studying. “Why should I put time into studying subjects I will never use in real life?” he protested. Without thinking, I responded, “Because if you don't get good grades, you won't get into college.” “Regardless of whether I go to college,” he replied, “I'm going to be rich.”

What does it take to say “F-it!” and really mean it? To walk away from the circumstances that have you stuck in neutral, or worse, headed in the wrong direction? To reroute your life along a smoother path toward success? To live an “F”-It-Less life? Have you ever just thrown your hands in the air and said “F”-It!? Been tempted to give in to someone or something you've been resisting? Or worse, found yourself backed into changes, circumstances, or even a life you didn't ask for? If so, you are not alone. But thankfully, there is now a powerful way to never have to say “F-It!” again. It begins with reframing the ‘f’ word . . . and ultimately leads to reframing your life. It's a method designed to help you choose the life you want to live, rather than blindly accepting the one you've got. Shaun Rawls, popular motivational speaker and founder of Atlanta's #1 real estate firm, devised this method during one of the most trying, yet triumphant periods of his life. In “F”-It Less he offers a whole new lexicon of F-words more powerful than the one we all already know. By employing each thoughtfully and practically in your life you can begin to craft the existence you've always dreamed of. During his own transformation, words such as ‘fragmented’, ‘frustrated’, ‘fractured’, and ‘failed’ helped him identify where he was in the moment and to earnestly assess where he'd gone wrong in the past. In time he enjoyed days that were ‘fine’ or even ‘fantastic’. Prioritizing words such as ‘float,’ ‘family,’ ‘faith,’ ‘fun,’ and ‘freedom,’ reminded him of his destination, while words such as “find,” “forgive,” “forget,” “fix,” and “foxhole” helped him to get there faster. What he discovered is that these F-words can draw us back into alignment with our purpose and goals, enabling us to live a more intentional and rewarding life—the life of our dreams. In this infinitely empowering book, Rawls shares both his story and his method with you, boldly encouraging you to use these words to examine your own life too—to see if it is one you consciously crafted or one you simply allowed to unfold. To decide whether you're living how you really want to live or if there is still much more work to be done. He challenges you to truly listen to your heart and gut, and to honestly acknowledge the areas of our life where you've compromised love and happiness for money, safety, security, or worse, fear. He coaxes you not to let our best life pass you by, but rather to proactively attain the life you really want. By sharing some of his greatest lessons, Rawls aims to help you avoid some of the same obstacles he's encountered and to live what he refers to as an “F-it-less” life—the life we're all entitled to discover, explore, and fulfill for ourselves. Saying, “F-It!” doesn't always have to mean you are giving in or giving up. With the right

Tools, it can actually mean you are ready to pursue a better life— one of greater ease, meaning, and purpose. A truly F-It-Less life.

"In the dark, bewildering, trap-infested jungle of misinformation and opaque riddles that is the world of investment, JL Collins is the fatherly wizard on the side of the path, offering a simple map, warm words of encouragement and the tools to forge your way through with confidence. You'll never find a wiser advisor with a bigger heart." -- Malachi Rempen: Filmmaker, cartoonist, author and self-described ruffian
This book grew out of a series of letters to my daughter concerning various things— mostly about money and investing—she was not yet quite ready to hear. Since money is the single most powerful tool we have for navigating this complex world we've created, understanding it is critical. "But Dad," she once said, "I know money is important. I just don't want to spend my life thinking about it." This was eye-opening. I love this stuff. But most people have better things to do with their precious time. Bridges to build, diseases to cure, treaties to negotiate, mountains to climb, technologies to create, children to teach, businesses to run.

Unfortunately, benign neglect of things financial leaves you open to the charlatans of the financial world. The people who make investing endlessly complex, because if it can be made complex it becomes more profitable for them, more expensive for us, and we are forced into their waiting arms. Here's an important truth: Complex investments exist only to profit those who create and sell them. Not only are they more costly to the investor, they are less effective. The simple approach I created for her and present now to you, is not only easy to understand and implement, it is more powerful than any other. Together we'll explore: Debt: Why you must avoid it and what to do if you have it. The importance of having F-you Money. How to think about money, and the unique way understanding this is key to building your wealth. Where traditional investing advice goes wrong and what actually works. What the stock market really is and how it really works. Why the stock market always goes up and why most people still lose money investing in it. How to invest in a raging bull, or bear, market. Specific investments to implement these strategies. The Wealth Building and Wealth Preservation phases of your investing life and why they are not always tied to your age. How your asset allocation is tied to those phases and how to choose it. How to simplify the sometimes confusing world of 401(k), 403(b), TSP, IRA and Roth accounts. TRFs (Target Retirement Funds), HSAs (Health Savings Accounts) and RMDs (Required Minimum Distributions). What investment firm to use and why the one I recommend is so far superior to the competition. Why you should be very cautious when engaging an investment advisor and whether you need to at all. Why and how you can be conned, and how to avoid becoming prey. Why I don't recommend dollar cost averaging. What financial independence looks like and how to have your money support you. What the 4% rule is and how to use it to safely spend your wealth. The truth behind Social Security. A Case Study on how this all can be implemented in real life. Enjoy the read, and the journey!

Learn why Rich Idiots outearn almost all the so-called wealth experts and how you can, too. Above all, learn how doing just one thing a day will bring you to your big goal.
